CITY CONSUMES 500,000 GALLONS OF WATER DAILY

Summer Use Considerably In Excess Over Winter Consumption—Superintendent Issues Caution Against Leaks—Outlines Two Main Causes For Complaints Of Patrons.

Five hundred thousand gallons of water a day are consumed in Vernon this summer, according to an estimate made by the city engineer, A. J. Robinson. An extra burden is added to city pumps at this season of year because of the freer use of water for all purposes. Sprinkling of lawns is one of the primary causes. In the winter the average daily use is 300,000 gallons.

Leaks are one source of tremendous outlay both in water and expense, according to Mr. Robinson. Consumers often complain that bills are excessive, when in truth the reason for the apparent high charge can be found in defective stop cocks or plumbing.

Leaks Run Bills Up.
Stop and waste cocks in yards are a common source of leakage, according to the city engineer. Their use is intended for cold weather only, but many persons find it more convenient to use these devices in place of faucets. As a consequence they become badly worn and permit water to leak continually. This causes bills to run up to what appear excessive figures.

Defective plumbing is another cause for high charges, the superintendent stated. Toilets, especially, often leak and a stream only one-eighth of an inch in diameter will waste 20,000 gallons a month. A forty pounds to the inch pressure maintained in the pipes continually forces the water out.

There is no inclination on the part of the water department to run rates up, said Mr. Robinson. On the contrary, every effort is made to maintain as economical a schedule as possible, but funds must be sufficient to sustain the service. In the event that consumers would observe caution in preventing leaks and consequent waste, he said, there is a possibility that rates could be made lower.

FORMER VERNON GIRL WEDS.

Miss Anna Tooley of Sulphur Springs Marries Pharmacist And Will Live In Estelina.

Miss Anna Tooley of Sulphur Springs and John Vardy of Estelina were married at the home of the bride Wednesday, according to word received by friends in Vernon. The young couple will be at home in Estelina about August 1.

The bride is a daughter of Rev. and Mrs. L. B. Tooley, who formerly lived here. Miss Anna was a student in the local High School, and graduated from Holcomb's Training School, after which she attended the College of Industrial Arts at Denton. She is a niece of Rev. R. V. Tooley, pastor of the Methodist Church at Tolbert.

Mr. Vardy is a graduate of the Wuester School of Pharmacy in Wichita, Kansas, and is employed at Estelina.

Has Remarkable Wheat Yield.

A wheat yield of more than thirty-seven bushels to the acre has been reported to the county agent from the H. Hildebrand place, north of the river. The farm is on mixed land and contains exceptionally rich soil. It is rumored that one farm near Crowell produced forty-eight bushels to the acre.

REAL ESTATE TRANSFERS.

F. H. Patterson to Rufus Waggoner lot 4, block 1, T. H. Shive addition for \$1,500.

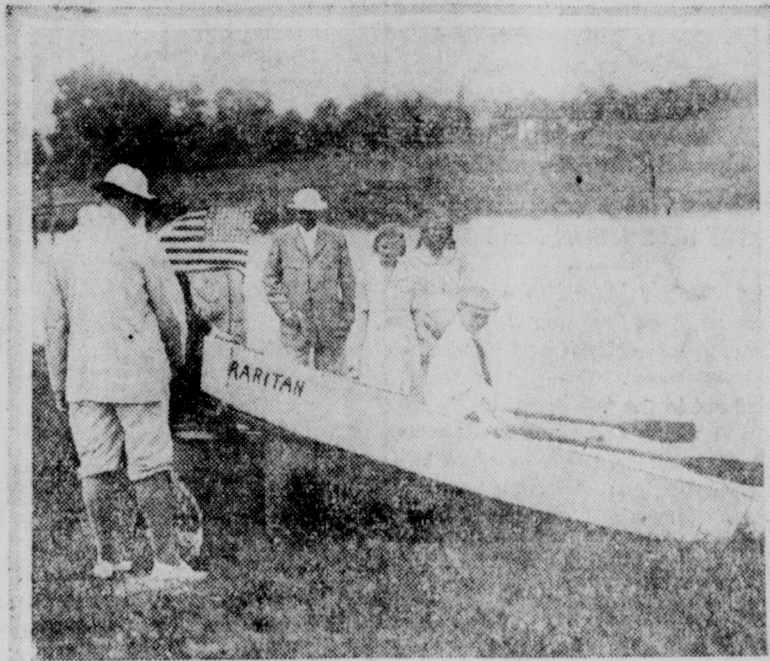

C. S. Rutledge and wife, P. E. Rutledge, to Pyrenes E. Rutledge lot 14, block 75, O. T. Vernon for \$3,256.75.

W. M. Austin to C. N. Holston the west 105 1-2 acres of the southwest 211 acres of John Cox Survey for \$7,300.

Sheriff's Force Busy.

A negro man and woman were taken into custody last night by the sheriff's force for alleged immoral conduct. Two white men were also arrested on the charge of drunkenness.

HARING ASSISTS BOYS TO LAUNCH ROWBOAT.

Acting as sponsor at Raritan, N. J., of a rowboat made by a nine-year-old boy, President Harding delivered a Fourth of July oration of a single sentence in tribute to the aspirations of America's boyhood. The diminutive craft, which inspired the toast, was the Raritan, nine feet over all, conceived and built by Joseph Frelinghuysen, Jr., son of the senior Senator from New Jersey, at whose home Mr. and Mrs. Harding were guests. The bank of an artificial lake was the scene of the launching and will be the home port of the Raritan as she sails a tramp course in search of misdirected golf balls. Specially constructed ways whose upper end rested on a soap box, guided her down the bank. The President broke a beribboned bottle of mineral water across her bow and said: "As a tribute to American boyhood, who build castles in the air who build boats and whose achievements in the future will build this country, I christen this boat, the handiwork of Joe Frelinghuysen, the 'Raritan.'" The photo shows the President christening the boat, with little Joe at the helm.

CLOTHING CONTEST JUDGING SATURDAY

COUNTY GIRLS WILL SUBMIT ARTICLES OF WEARING APPAREL.

Articles submitted in the county club girls' clothing contest will be put on exhibition Saturday morning at 10:30, and judging will commence at 2 o'clock in the afternoon. County home demonstration agents have announced that all girls entered must be present when the award is made. First prize will be a trip to Texas A. and M. College July 25 and a week's attendance at the short course offered by the institution.

Nineteen girls are entered in the county clothing contest. Seven of these are from Odell, seven from Harrold, and five from Oklaunion. Judges selected by the Federated Clubs will be Mesdames O. A. Brunson, A. C. Roger, and Shirley Cook.

Set of School Clothing.

Preparation for the contest has been in progress for several months. The competition was announced about the first of the year, but a majority of the girls have waited until school duties ceased to press before commencing work on the wardrobe. The articles on exhibition will make up a complete set of school clothing, most of them being fashioned by the girl submitting them.

PRESIDENT HARDING IS AN ENTHUSIASTIC GOLF PLAYER

President Harding "putting off" on a tee on the course near the home of Senator Frelinghuysen, at Raritan, N. J. President Harding is an ardent golf fan and plays whenever he gets the chance, which is not very often.

TWO CONTESTS OPEN GOLF TOURNAMENT

MORRIS AND HUGGINS ARE WINNERS IN FIRST ROUND OF PLAY.

Only two flights of golf were played yesterday in the second tournament in progress at Hill Crest Country Club. G. C. Morris eliminated Frank Murchison 57 to 64 and Wallace Huggins vanquished Wylie Bennett in twelve holes. Morris and Murchison were tied in strokes at the end of the sixth holes but the former holed out in seven strokes less when the final count came.

Huggins and Bennett battled nine holes to a tie, 79 strokes, each, and played three holes to decide the rubber this morning. Huggins won 28 to 29. Both matches were played over the entire course, thus accounting for the comparatively high scores.

Were Many Forfeits.

The first day's play was featured by forfeits, most of these being due to the fact that numbers of participants are out of town. John Storey forfeited to J. A. Birdsong, Eric G. Schroeder forfeited to Luther Webb, E. P. Hicks forfeited to W. K. Long, R. D. L. Kilough forfeited to H. E. Rogers, and L. E. Piper forfeited to Emory Rhoads. Matches scheduled for today are E. C. Christian vs. W. D. Berry, and R. H. Coffee vs. L. K. Johnson. A. B. Swartwood and W. N. Stokes are slated to play tomorrow.

Grounds at Hill Crest are in excellent shape for the tournament. The bottom land has been mowed and the greens improved.

Married At Court House.

Earl W. Hughes and Miss Sibbie Lee Jonett were married Saturday, July 9, at 3 p. m. in the office of Justice of the Peace T. J. Griffiths. The bride is a daughter of Mr. and Mrs. L. P. Jonett and Mr. Hughes lives near Condon Springs. They will make their home in Vernon.

Altus Elks To Initiate.

A letter and telegram were received today by the Vernon Elks Lodge inviting local members to an all day initiation and celebration that will be held tomorrow at Altus, Okla. It is possible that a number of Vernon Elks will make the trip in cars.

Home-Made Candy Market.

The Willing Workers Class of the Presbyterian Sunday School will have a home-made candy market in Mallow and Minarik's Meat Market Saturday afternoon. Come and buy from us. 52-2c Adv.

Fordson Tractors Sold.

Fordson tractors were sold last week by the Napier Bros. Motor Co. to Dewey Anderson living southwest of Vernon, J. W. McCrary of Vernon, T. H. Richards living north of Vernon, and C. B. Mason living north of Harrold.

FIRST MEETING OF MILITIA IN COURT ROOM THURSDAY

Live Speakers Will Address Those Present, and Questions Concerning Organization Will Be Answered—Recruiting Office Aids Materially In Obtaining New Members.

A smoker in the district court room will open the first meeting of local militia Thursday evening at 8:30. Every man over 18 years old who is interested in the organization and all members who have made application to belong are especially urged to be present. Questions will be answered and there will be talks by energetic speakers.

A recruiting office has been opened by local militiamen in the downstairs room of the Sigler building and will continue there the remainder of the week. Captain Clyde Watts is in charge and he is assisted by J. V. Russell, Elzy Youngblood, and Jim Bomar. Recruiting has been stimulated appreciably since the office was opened and Saturday, especially, proved a banner day for new members.

At least fifty bona fide members is the aim of the local militia company. An attempt will be made to obtain sixty-five which is full war strength.

CALLEO WILL WRESTLE JULY 22.

Omaha Wrestler Is Substituted For Ackerman On That Date—Irishman Coming Later.

Gus Calleo, middleweight wrestler of Omaha, Neb. and not Al Ackerman will be the opponent July 22 of Young Gutch in a match staged here under the auspices of the Vernon Athletic Club, according to an announcement made yesterday. Ackerman has a contest scheduled at Wichita, Kans. about that time and will not be able to make his appearance then. However, the burly Irishman will come soon after for a match here with Gutch.

Calleo is a fast, powerful grappler and should give Gutch an interesting match. His prowess extends largely to the middle weight but he is being brought here under high recommendations.

Arrangements are under way to have the Gutch-Calleo match in the Opera House.

TOLBERT REDS WIN OVER BLUES IN PENNY CONTEST

A contest for sixty yards of pennies waged between Tolbert Methodist teams called the Reds and Blues closed Saturday night with 83-14 yards for the Reds and 76-14 yards for the Blues. Oscar Tooley was the leader of the winning team, and Montie Brooks of the losers.

A few weeks ago the Sunday School was divided into the two aggregations and it was decided that the winners would eat ice cream and cake while the "runners up" would feast on cheese and crackers. Both teams, however, enjoyed ice cream and cake after an interesting program last Saturday night.

Marriage Licenses Issued.

Marriage licenses were issued July 9 to Earl W. Hughes and Miss Sibbie Lee Jonett, July 9 to John Webb and Lonella Sankay, negroes, July 9 to Evey Ollens and Mrs. Alice Davis, July 10 to Fred Nelms and Jimmie Long, negroes.

Visitors Return Home.

Mrs. R. H. Nichols and two little daughters, Mary and Emma Aleen, returned to their home in Amarillo yesterday after several weeks in Vernon as the guests of Mrs. R. H. Nichols' parents, Dr. and Mrs. H. H. Rhoads, and family. Miss Emma Rhoads and Little Miss Minerva Price Rhoads went home with them for a visit.

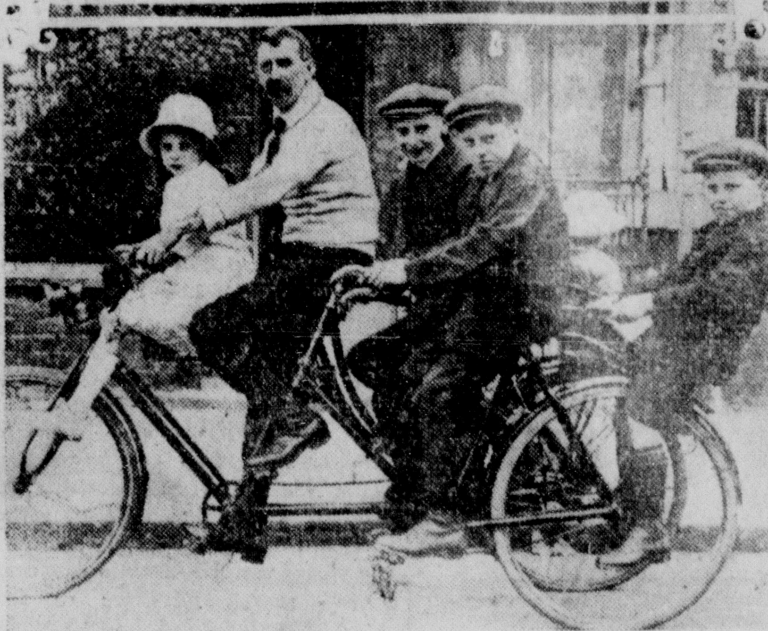

Columbia Academy Officer Here

Captain Fry of Columbia Military Academy, Columbia, Tenn. was the guest last week-end of Perry Howard. The school officer is making various towns in Texas with a view of insuring the return of former students and interesting prospective cadets in his institution.

To Preach At Hinds.

The Rev. E. L. Moore, pastor of the local Presbyterian Church, will preach at 3:30 o'clock next Sunday afternoon at East Hinds.

THIS IS A FAMILY AFFAIR.

This ingenious London "Bobby" prefers the strange vehicle shown to a flyover. He constructed it himself and arranged for enough seats to accommodate his whole family.

FIRE BREAKS OUT EARLY IN MORNING

CITY DRUG STORE AND ADJOINING BARBER SHOP BADLY DAMAGED.

Fire which broke out about 3:40 Saturday morning in the City Drug Store on North Main street caused considerable damage in the establishment as well as in a barber shop one door south. The origin of the fire is unknown and was discovered by the night watchman who fired his revolver several times to give the alarm. The fire station was finally reached from the White Rose Cafe.

Smoke caused a great part of the damage, and a large plate glass window in the front of the drug store was cracked. The interior of both barber shop and drug store suffered materially from water, and Saturday owners of both establishments were unable to estimate their losses.

Only Minor Insurance.

R. A. Albert is proprietor of the City Drug Store. He carried only a small amount of insurance on his stock. O. B. Dawdy, proprietor of the barber shop, carried \$2,000 insurance on his establishment and believes this may cover the major part of the loss.

Attend Dance at Electra.

Numbers of Vernon young people went to Electra Friday night to attend a dance. Those in one party were Misses Geraldine and Mozelle Parker, Laura Tankersley, Bernice Towle, Maudie and Beulah Ladd, Bertie Hiatt, Charley Mae Northcraft, Ruby Thomas, Annie Greever, Thelma Batchelor, Doris Roger, Woody Dixon, and Messrs. H. A. Wallace, Orba McCurdy, Elzy Youngblood, Alfred Butler of Mineral Wells, Aubrey Foster, Evans Mason, Frank Nicholson of Wichita Falls, Roy Boger, Frank Finley, Russell White, Harold Shive, Clyde Batchelor, and Glen Knight.

CHICAGO MAN HEADS INSTITUTE.

Dr. H. W. Nutt, Of National Reputation, Will Conduct Meeting at Wichita Falls.

Dr. H. W. Nutt of Chicago will in all probability conduct the teachers' institute that will be held in Wichita Falls from September 5 to 9 inclusive, according to E. L. Dehoney, local school superintendent. Dr. Nutt is nationally known as an educator, and is the author of several books.

Four counties are now embraced in the institute. Archer has been added to Clay, Wichita, and Wilbarger counties. Attendance at the meetings is compulsory from all teachers.

Mr. Dehoney heads the executive committee of the entire institute.

Honey Grove Visitors Here.

Miss Floy Seay and Miss Lorene Murphy of Honey Grove are the guests of Mrs. Carl King. Cards are out for a party at Mrs. King's home on South Cumberland street Friday, when local young women will meet Mrs. King's guests.

Notice O. E. S.

The E. T. Murchison Chapter No. 424, O. E. S., will meet in regular session at 8 o'clock Friday night. Usual business will be transacted and installation of officers will be held. A large attendance is desired.

HARVEST SEASON HELPS COLLECTIONS

MERCHANTS STATE OLD DEBTS ARE BEING SETTLED MORE READILY

Inquiries from Vernon merchants concerning collections divulge the fact, that, for the most part, payments are more satisfactory at this time than for many months. Responses to the query as to whether the average debtor is meeting his obligations ranged from hearty acknowledgment in some instances to "a little better" in others.

Collections are fine for an implement company on North Main street. Wheat has been threshed somewhat earlier than at first anticipated, said one of the proprietors, and as a result more money is now in circulation instead of being delayed until the first of the month.

"Wheat has done very well this year," he said, "and we only have to look around to see how well off we are."

Old Debts Being Paid.

Collections are being made from some who deferred payment before, a tire merchant on Main street said. On the whole, business is not greater in volume than heretofore, but one can notice an increase in the sale of castings and parts due to the harvest season. Farmers and others, he said, are patching up their cars and machinery more this season than ever before.

Clothing merchants interviewed remarked that business is picking up but that many patrons had gotten out of the habit of "settling up." Grocery stores and ladies ready-to-wear establishments have felt no appreciable increase as yet from the influx of wheat. The jewelry business, one local merchant remarked, is affected more by cotton than wheat.

There appears in general a spirit of optimism on the part of Vernon merchants. Times are growing somewhat better, at least, and prospects, many think, are that improvement will continue steadily.

MRS. C. S. FOLTZ HEADED FOR ASSISTANT ATTORNEY-GENERAL.

It is rumored in Washington that Mrs. Clara Shortridge Foltz, sister of Senator Shortridge, of California, is to be appointed Assistant Attorney-General to succeed Mrs. Annette Adams, who resigned recently.

HOME ECONOMICS ADDED TO LOCAL SCHOOL COURSES

Instruction in Spanish and Trigonometry Will Also Feature In High School Work for Coming Year—A. F. Winston Made Principal of Institution—Five New Teachers Appointed.

Business of moment at the meeting of the Vernon school board last Friday involved the installation of three new courses in the curriculum of the high school, and the selection of A. F. Winston as principal of that school. Home economics, Spanish, and trigonometry will be added to the studies next year for the first time in the history of local schools.

Partitions will be put in numbers of rooms on the second floor in order to accommodate the domestic science students and estimates are now being made for the work by local contractors. E. L. Dehoney, city superintendent of schools, will visit several towns where home economics are taught in the schools with a view of determining the best arrangement and equipment for the conduct of this course. For the most part, however, the suggestions of the State home economics director will be followed in the installation of equipment.

All Are Beginners.

"Next year everyone will be a beginner in Spanish," said Mr. Dehoney this morning, "but we expect to teach at least three years in that subject."

Miss Frances Oliver will teach in this course. Mr. Dehoney may serve as instructor in trigonometry.

The selection of A. F. Winston as principal of the school is not a surprise to most local school patrons. Mr. Winston has a broad experience as both teacher and principal, and is most capable to fill his new office. He will probably teach sciences. He takes the place of W. C. Smith, principal last year.

Five New Teachers.

Five grade teachers were appointed at the meeting Friday. They are Misses Grace Tyree, Rena Bates, and Joyce McBeath, who will teach in the Central school, and Miss Juanita Watson and Mrs. Flora M. Martin, who will be on the staff of the Shive school. The grades each will teach have not as yet been assigned. Their appointments fill all vacancies for the present.

Buildings and grounds will be put in shape in the near future for the opening of the school term September 12. City Commissioners have agreed to clean up part of the Shive school grounds by the removal of a rock pile which remained from the time West Texas street was paved, and the Central school grounds will likewise be cleaned up. It is planned to level all the school premises and sod them. Buildings will also be overhauled.

GROWING TRUCK IN ARKANSAS.

C. F. Newth, Visiting Vernon For First Time, Says Farmers Are Diversifying In His State.

Truck growing is fast taking the place of cotton in Southwest Arkansas, according to C. F. Newth, who is in Vernon on a visit to his son, F. A. Newth of The Record. This is Mr. Newth's first visit to Wilbarger county. He is very much impressed with the appearance of things here, but doubts if the soil is quite so fertile as around his home town, Prescott, Ark. Farmers around Prescott have made marketing connections, and are finding welcome relief from growing cotton in producing truck. Mr. Newth says. Everything grows there. Prescott is only a short distance from one of the greatest Elberta Peach orchards in the world.

Peaches are not quite up to the standard this year, Mr. Newth says.

Good Rain at Farmers Valley.

An excellent rain fell Sunday in the Farmers Valley community, according to C. M. Blair, who with his family, spent the weekend in that locality and Medicine Mound. The moisture was greatly needed, Mr. Blair said, and there was considerable rejoicing on the part of the farmers.

Infant of R. P. Small Dies.

Little Joyce Leona Small, 26 days old, child of Mr. and Mrs. R. P. Small, died at 8:30 o'clock this morning. Funeral services were conducted at the residence at 5:30 this afternoon and burial was in East View Cemetery.

CANDYLAND**TWO NUTRITION CLASSES FORMED****TWENTY-TWO CHILDREN ATTEND AT FIRST MEETING OF UNDERWEIGHTS.**

Twenty-two children and their mothers were present Saturday afternoon at the first meeting of the nutrition class formed by the county Red Cross nurse. Those present were divided into two classes of eleven members each, and one organization will meet at 10 a. m. each Wednesday and the other at the same time each Thursday. The class meetings will be conducted for three months.

Chocolate milk shakes were served the children Saturday, and some form of nourishment will be given each time the respective classes convene. Stories were told also and talks were made. Miss Lacy discussed with the mothers various foods and their values, and Miss Ellmann talked to the children on health habits.

Are All From Vernon

The classes are made up of children from 5 to 8 years old and some of them according to Miss Ellmann, are as much as twenty per cent underweight. The children all of Vernon, are about evenly numbered as to boys and girls.

As far as is known this is the first class of its kind in the State conducted under the co-operation of both county home demonstration agents and Red Cross nurse. Mothers are manifesting a great amount of interest. It is said. Any children underweight are invited to attend the classes.

ON THE WING.

(By D. W. Leigh.)

With the "Flying Dutchman" attached to the buggy, we left town last Wednesday morning with Oklahoma, eight miles east on the Denver railway, as the objective, arriving late in the afternoon. En route, we left the main road at the Krebs farm going by way of Kingola, traversing part of the Dawson Valley. This section fringes the Peace river for several miles, which, with thousands of acres of waving corn, maize and cotton, mingled with fields of wheat in the shock and in some instances threshers with hot, tired crews separating the grain from the straw, was a revelation to a stranger, besides bearing minute but eloquent testimony to the agricultural possibilities of Wilbarger county.

With few exceptions the crops were remarkably clean and growing rapidly. Hogs and poultry gave evidence of thrift on the part of farmers and their wives, while flowers, shrubbery and shade trees are indicative of refinement and civic pride. Oklahoma is a live village with two cotton gins, bank, elevator, garage and three or four stores. Clay Brite is Uncle Sam's man who weighs the packages, sells the stamps and hands to the girls of the town and country the love letters written by the boys. The town is surrounded by rich prairie lands producing big crops of grain and in consequence is a splendid market for the country's products.

Settled in 1879.

Within one mile of the prosperous village, is one of the handsomest rural homes we have seen in the northwest. We refer to the two story brick residence of Mrs. I. M. Smith. It was erected on an eminence overlooking the country for many miles and from her front porch one can see part of Southwest Oklahoma lying several stretches to the north, and many other objects in either direction with dozens of miles intervening.

B. F. Simmons resides two miles west of the town on a farm which he settled in 1879, and when there were only five other families in the county. The country was barren and the only inducement to the settler was cheap land sold by the State at \$1.00 per acre on forty years time with only 5 per cent interest.

Proceeding westward from Oklahoma we passed through the East Vernon school district leaving behind fine

farms, promising crops, neat and attractive homes. Threshing was in progress in many fields and the yield from 12 to 25 and in one or two instances, 30 bushels per acre.

On Commissioner A. M. Bourland's farm we caught a glimpse of some thoroughbred Poland Chinas. They are of the big bone type and the pioneer of this particular breed should receive the encouragement and success so justly due him.

Good Wheat at Lockett.

Lockett is in the midst of a fine farming country. Good wheat, promising crops of corn, cotton, and maize, with alfalfa yielding two tons per cutting, are encouraging signs of returning prosperity.

Kincheloe is hanging itself hoarse because of its good crops. Corn is practically made and there will be plenty and to spare when the rats get their quota. Maize is in the head and cotton in full bloom; alfalfa cut, baled and stored. On this jumbo farm (more than three sections we are informed) T. E. Davis is introducing thoroughbred Duroc Jersey hogs to his neighbors. He will reap his reward because the day of the scrub is gone.

We noted along the way that our good women are raising more and better fowls than formerly. On last Saturday the writer ate dinner with Mr. and Mrs. Roy Ferguson, the latter placing before this hungry pencil pusher a fried Buff Orpington.

During the four days itinerary we were the recipient of many courtesies and the kind hospitality of the following homes: Mr. and Mrs. L. E. Canafax, Mr. and Mrs. W. P. Nettles, Mr. and Mrs. T. J. Kern, Mr. and Mrs. T. E. Davis. In soliciting subscriptions to The Vernon Record we succeeded in placing the following on the

Roll of Honor:

J. N. White, W. J. Ellis, T. F. Davis, F. E. Stone, L. E. Canafax, Mrs. W. S. Bourland, W. P. Nettles, Mrs. I. M. Smith, B. F. Simmons, A. B. Jarrell, Mrs. A. C. Lee, T. J. Kern, C. W. Snyders, H. A. Hill, S. C. Davenport, J. L. Goodman, T. E. Davis, A. J. Standee, Roy Ferguson.

It is our purpose to meet and form the acquaintance of the people of Wilbarger county and our burning desire is to place them permanently on the honor roll. Vernon, July 11th.

Couldn't Help It.

Nance Odlen is a clever little crook having been trained by Tom Dorgan. Simulating an unbalanced mind she allows herself to be taken into the Ramsey home following a theft from the man of the house in which she has been an aide. In this home she meets Latimer, Nellie Ramsey's fiancé. He learns her true position and befriends her and helps her to make something of her talent for art. Later Dorgan escapes from prison and comes to her studio and she is accused of theft through a plot arranged by Nellie. She escapes however and finds happiness in Latimer's love for her.

Christian	6	3	3	.500
Methodist	6	2	4	.333

Christian Sunday School ball players fell like demons on the offerings of Methodist pitchers yesterday and batted their way to a 14 to 3 victory over the disciples of Wesley. Key and Norwood were both hit hard, and Shepard and Bridges of the winning team, connected for home runs. The latter garnered four safe blows from as many trips to the plate. Jones, Christian third baseman hit safely three times out of four times at bat.

None of the Methodist players were able to annex more than one hit, and Johnson pitched an excellent game. He struck out fourteen men.

LUNCHEON AND BREAKFAST ARE GIVEN FOR MISS HICKS

Mrs. Walter McCaleb entertained with a luncheon honoring the bride-to-be, Miss Frances Hicks, at 1 o'clock yesterday afternoon. The color scheme carried out in the table decorations was pink and white, and place cards were small pink hearts. Places were laid for the following: Misses Oleta and Juanita Youngblood and their house guest, Miss Eleanor Phillips, Miss Mary Anderson, Miss Adelle Sumner, Mrs. S. S. Munger, Miss Hicks, and Mrs. McCaleb. The afternoon was spent in making handkerchiefs for the guest of honor.

Miss Mary Anderson entertained with a three course breakfast for Miss Hicks and the young ladies of her wedding party at 9:30 o'clock this morning. Decorations, place cards and favors were suggestive of a bride, and Shasta daisies being used to center the table. Bridge furnished entertainment during the morning, and high scores honors went to Miss Phillips. She and the guest of honor were given attractive favors. Covers were prepared for: Mrs. Walter McCaleb, Mrs. S. S. Munger, Misses Oleta and Juanita Youngblood, Miss Alma Phillips, Miss Adelle Sumner, Miss Dorothy Hicks, Miss Elizabeth Garner, Miss Hicks, and Miss Anderson.

WINS SECOND PLACE IN ESSAY CONTEST

HARROLD LAD IS AWARDED HONORS IN STATE-WIDE COMPETITION.

Second prize with a grade of 94 has been won by Almer Morris of Harrold in a State essay contest recently conducted by the Mistletoe Creamery Co. on "Why I Would Like To Be a Dairy Farmer." First prize in the competition carried with it a scholarship to the Texas A. and M. short course, or equivalent to about \$80.

The contest was open to any club member of the State. Four participated from Wilbarger county.

Following is the essay submitted by young Morris and which was awarded second prize:

Why I Would Like to be a Dairy Farmer.

There are several reasons why I would like to be a dairy farmer. Land is now getting very high throughout the United States. Some domestic animal must be kept on this land so as to make the largest profit on the smallest area. The dairy cow is one of the best for such conditions. Beef cattle were formerly raised in the United States very extensively, but now they are gradually disappearing and dairy cattle are taking their place.

People are now realizing the high food value of milk and its products and also its healthfulness. Many dairy cows give enough milk and butterfat in one year that the food value in it amounts to three times the food value in a large steer. Since milk and its products are so highly demanded, a good steady price will always be offered for both.

Dairy farming has the following advantages:

First:- The dairy cow is well suited to diversified and intensified farming when the farmer works to produce a very great income from a small acreage. Examples of this are found in Holland, Denmark and the Island of Jersey, where great profits are yielded on such a small area.

Second:- If the manure is properly kept and used dairy farming increases the fertility of the soil. If corn or other such plants are raised continually on land, it will soon become infertile. Since the manure helps the land the production of milk and butterfat takes much less food value from the soil than plants.

Third:- The dairy cow brings in a continuous source of revenue. When the steer is fattened and killed his profit and production ceases.

Fourth:- Skim milk, clabber and butter milk yield large profits, if properly fed to hogs and poultry.

Fifth:- Good grade and purebred cows have a ready sale. The demand being so high, it is very profitable to raise this kind of stock.

Sixth:- There are many different breeds of dairy cattle to choose from. The most important breeds are the Jersey, Holstein, Guernsey, Ayrshire, Brown Swiss and Dutch Belted, the Jersey and Holstein being the most popular throughout the United States.

Seventh:- A dairy cow can be judged by her appearance alone.

These advantages of dairy farming show that dairy cows can be kept at a large profit. Often times where a large herd of cows could not be kept on a farm a few could be kept at a large profit. The average man works only about half the year on his farm, leaving a long period without work. The carpenter who works only half the year is not likely to accumulate much property, nor is the farmer who works only half the year likely to pay for a farm. A limited number of cows on the farm gives employment in the morning and evening when field work cannot be done. They also provide work that children can do before and after school.

Dairy farming is a very healthy, prosperous and honest business. It can be carried on very successfully with the rest of the farm work. Many records have shown this. All of these reasons explain why I would like to be a dairy farmer.

White City.

White City, July 11.—(By special correspondence.)—Cotton is fine in some places locally. Acreage is greatly reduced in this vicinity and a great deal of wheat, oats and feed stuff are taking the place of cotton.

The singing at White City Sunday afternoon was much enjoyed.

The Williams quartette of the Trio Music Company rendered some especially fine numbers. Among other prominent singers present were: Prof. Guy Rowe, J. S. Archer, Mrs. Will Lawson, Mr. and Mrs. Claud Brock, Mr. Brock and Grandpa Lundy, all of Tolbert, Mr. and Mrs. Castleberry and daughter, Miss Augusta of Fargo.

The young people enjoyed a singing at the home of Mr. and Mrs. C. N. Hobson Sunday night.

Among the Vernon visitors Saturday were: Mrs. J. C. Hughes and sons, Mr. and Mrs. R. L. Olive, Mr. and Mrs. Raymond Olive, Rev. W. W. Adams, Miss Una Mae Adams, Luther Anderson, Gusta Hardage, Ovid Hobson, Jim Kays, and son, Phillip, R. L. Sellers, W. B. Covert, Luke and Clint White and Mrs. Phipps and baby.

Walter Starr of Vernon spent Sunday with his parents, Mr. and Mrs. J. P. Starr and attended singing at White City in the afternoon.

Miss Thelma Killough of Pleasant Valley visited Miss Una Mae Adams Sunday.

Mrs. Hobs of Fort Worth is visiting her daughter, Mrs. Rob Hobson.

Mr. and Mrs. Pony Key of Vernon are visiting their parents, Mr. and Mrs. C. N. Hobson.

Miss Muriel Olive of Hank Hill took dinner with Miss Fannie Gauntt Sunday.

Mr. and Mrs. Lee Armstrong of Doans are visiting their parents, Rev. and Mrs. W. W. Adams.

Little Glenn Knapp entertained with dinner Sunday in honor of his eleventh birthday. Those present were: Tommie Killough of Pleasant Valley, Ruth and Doris Armstrong of Doans, Aubrey Adams and Maurine, James, and Glenn Knapp. Glenn is improving from an extended illness.

Wildcat News.

Wildcat, July 11.—(By special correspondence.)—Ladies of the Wildcat club met with Mrs. G. W. Hildebrand last Tuesday with Miss Edith Lacy and Miss Eula Goodfellow, County Demonstrators, as instructors.

The day was spent in canning beans and black eyed peas and making jelly. One hat was made and one dress cut out.

The demonstrators also taught the ladies new fancy stitches and how to make the trimming for dresses known as points.

At noon, the ladies enjoyed a bountiful dinner, and in the afternoon were refreshed with lemonade.

Those present were Mesdames G. W. Hildebrand, Alice Simpson of Charleston, J. L. Burk, Sam Wallace, John Owens, Virgil Hildebrand and Misses Edith Lacy, Eula Goodfellow, Maude and Ada Hildebrand, Cora Liles, Gussie Norton and Benah Burk.

The club adjourned to meet with Mrs. Nual Brooks, the first Tuesday in August.

THE AMERICAN PRESS ASSOCIATION

Vernon, Texas, Tuesday, July 12, 1921.

HOW WILL YOU VOTE?

Five amendments are to be voted on by Texans Saturday week. These propose to increase the salaries of the six executive officers of the Commonwealth; to increase pensions paid Confederate soldiers; to change compensation of members of the legislature; and to amend the suffrage article in the Constitution; and an amendment relating to the Prison Commission.

The pay of the governor, his co-workers, and the legislators was fixed nearly half a century ago, and what seemed liberal then is utterly inadequate at this time. The sacrifice required of a man who would fill a State office in Texas is such that very few poor men can aspire to such service.

Texas is amply able to pay the men who manage affairs of State, and The Record is of the opinion that to place the business of the State on a basis somewhat more nearly akin to the methods of business institutions would result in appreciable savings, even though such men might have to be paid somewhat more than the limits fixed by our Constitution permit.

With the governor paid \$4,000 a year; the attorney general \$4,000 a year; the superintendent of public instruction, \$4,000; while the secretary of state and treasurer each receives \$2,500 a year. The legislators receive \$5 a day for the first 60 days, together with certain travel allowances.

It must be manifest that these allowances are inadequate.

The other amendments will be taken up another time.

SURPRISING DISINTEREST.

Lack of interest in testing cows for tuberculosis is surprising, when it is understood that milk from a tuberculous animal is the most prolific source of that dread disease which continues to take by far the heaviest toll of human life.

Two years ago considerable interest was worked up. Men and women who had never given the subject a thought realized that where they saved a few dollars by not having their cows tested, such economy was had at the risk of every son or daughter in the home.

The law is clear, as we understand it. Persons selling milk and butter are required to have their cows tested. Of course, the law may not be enforced—just as the ordinance against spitting is not enforced.

Surely nobody wants to "lay down" on this most practical method of helping stamp out the great white plague.

HELP THE COUNTY FAIR.

Help the County Fair. By so doing you help yourself.

One of the large purposes of the County Fair is to bring country and town folks together. Nor is the time spent in thus mingling and finding out something of the other's likes and dislikes by any means a loss.

When we understand each other better there is a larger appreciation of the aspirations of each; cursory jealousies fade away, and both town and country takes new interest in helping

the other become a better place to live.

If it were not for the inspiration of seeing what the other man grows; the sense of pride that comes of finding out what a diversity of crops can be grown, and what fine hogs, cattle, horses, and chickens can be produced—it is not for these very real values—the mere fact of getting better acquainted would be worth more than it costs.

"When you come to know a fellow and you understand his ways; then his faults don't really matter, for you find so much to praise.

WILL NOT REDUCE POWER.

Disarmament is a consummation which even those who have doubted the wisdom of going unarmed are coming to view as necessary if we would avoid burying ourselves under the avalanche of military and naval expenditures. It is gratifying, therefore, to note Lloyd George's statement that England will meet the disarmament plan with delight.

On the other hand, repeated statements that "Disarmament will not reduce power," "that the United States Navy must equal any," seem unwise to say the least. They sound greatly like propaganda.

Is it not reasonable to assume that every nation will insist on its present status—that is, unless the burden is already so great that it is impossible to go on. The impossibility of going on may be apparent to some, but to other nations it is by no means conclusive.

Undoubtedly it is desirable that the United States Navy should equal any. On the other hand, it is questionable wisdom to insist on this so strenuously as to defeat any plan for disarmament. Above all, it seems unwise to flaunt such sentiment just at this time.

Thompson Community

Thompson, July 11.—(By special correspondence.)—A light rain fell in this community Sunday.

Mr. and Mrs. R. L. Sellers and three children Cecil, Frances and infant son, R. L. Jr., of the White City community spent Sunday night with T. M. Dennis of this community. Mrs. Sellers and three children are going to visit T. M. Dennis and family a week.

Mr. and Mrs. Russell and baby of Rayland visited at the home of O. P. Crites Sunday.

O. P. Crites returned home from Granbury Saturday morning.

J. A. and Willie Crites went to Oklahoma Saturday where they will work at the broom corn harvest. They made the trip by automobile.

Farmers are almost through with threshing in this community and some of them have begun breaking their land.

Clint Rogers was in Vernon over the weekend.

Mr. and Mrs. Joe Langhorne of Dalhart visited O. A. Brunson and family last week on their way to Houston.

Mr. and Mrs. R. M. Bailey of Dallas were guests at Hill Crest Friday evening of Mr. and Mrs. S. W. Bailey.

Eric G. Schroeder left this afternoon for Estes Park, Colo., where he will join relatives for a vacation in the mountains.

E. M. Leutwyler left Saturday for Fort Worth to attend a special meeting of the Texas Optometric Association. Dr. W. B. Needles of Kansas City will deliver a series of lectures at the meeting.

Mr. and Mrs. Fred Hanna of Altus, Okla., are visiting their mother, Mrs. J. C. Sumner.

Miss Cleo Bowers and Miss Willie Carroll motored to Wichita Falls yesterday where they will visit friends for a few days.

Wesley Dunklin left Saturday for Dallas to visit his sister, Mrs. J. T. Doherty.

Misses Fanny Lee and Lillie Beth Wilson of Elgin are visiting their aunt, Mrs. R. T. Wilson on West Texas St. They are on their way home from Colorado where they have been visiting.

Brenlin
the long-wearing window
shade material

Be sure the window shades you buy
won't crack and break!

Ordinary window shade material is made of coarse muslin which is filled with chalk and clay. The wear of daily usage causes this filling to loosen and fall out, leaving the shade full of cracks and pinholes.

But Brenlin wears and wears

Brenlin is made of fine, closely woven cloth which contains not a particle of chalk, or clay, or other filling.

It wears and wears. Hangs smooth and straight. No cracks, no pinholes deface it!

Tinted with the finest, fast colors Brenlin Window Shades will not spot in the rain nor fade in the sun. They wear three times as long as ordinary shades.

Come in and see the many rich colorings we have in this long-wearing shade material. Let us show you how little it will cost to shade your windows with Brenlin, and help you select just the tone that will harmonize with the color scheme of your room. Come today.

Mrs. Dalton Westmoreland of Dawson left this morning after a visit with her son Aubrey. Mrs. Westmoreland returned to Harrold to visit her daughter.

RED CROSS HINTS.

The Mosquito.
Few communities and localities are fortunate enough to be free from the mosquito, which announces his advent by his peculiarly unpleasant "song" with the opening of early summer and continues his career until far into the fall in many places.
Mosquitoes are disease spreaders and those maladies known to be carried by this insect are malaria, yellow fever, dengue fever, and filariasis. Breeding places, especially for the domestic mosquito, are in any small collection of water that may be present in tin cans, bottles, flowerpots, pools, gutters, sewers, etc. The malaria mosquito usually prefers the margins of ditches and lakes, swamps and low bottom lands.
Should Screen Buildings.
All buildings in localities infested with mosquitoes should be screened. No water should be allowed to stand in containers around the house. The grass should be kept cut short so it will not serve as a hiding place for mosquitoes. Low places should be drained by ditches. Oil may be used as a measure to prevent breeding. It should be placed in a fine film over the surface of the water, a light oil being best adapted for the purpose. It requires an ounce of oil for each 15 square feet of surface and must be renewed several times a month.
Itching and irritation from mosquito bites can be relieved by a lotion of carbolic acid. To make this lotion add a level tablespoon of boracic acid powder and 20 drops of pure carbolic acid to a half pint of hot water. Stir well and shake until the boracic acid is dissolved. Cool before using and apply by dabbing on with a wad of cotton or spraying on the surface with an

DENTON ROTARIAN IS VISITOR

Delegation From Quannah Failed to Appear For Luncheon With Local Organization

Rev. Charles Collins of Denton was a visitor at the Rotary luncheon today, and took charge of the sing song, to the delight of every one present. Other visitors were Judge J. C. Sheppard of Poplar Bluffs, Missouri; A. D. Sheppard, W. N. Stokes, Frank Murchison, and L. G. Hanks of Vernon.

Members who were absent were Roy Killough, who is in Denver, Colorado; T. H. Shive, in Long Beach, Calif.; and Jed Morrow, who is in Austin, Texas; J. A. Birdsong, Hub Colley, and Barney Williams.

A delegation of visitors was expected from Quannah, from which town application has been made for the organization of a Rotary. Emory Rhoads, Myrt Napier, Stanley Hayne, Jed Morrow and Buford Brown went to Quannah Friday, and invited representative business men to come to Vernon today for the Rotary luncheon.

Money, Money, Money.

We have an endless chain of money to lend on farms, in Wilbarger, Ford Hardeeman, and other Western Texas counties. Long time, and at rates, as low as can be had anywhere.

QUALITY

AND THE COURAGE TO BACK IT UP

True courage is neither blind nor spectacular; true courage is patient, careful, intelligent; it holds to an ideal and lives up to it in the face of danger and difficulty.

We have never catered to our price cutting competitors for we have never carried anything in stock but high class merchandise; for our customers are all of the better class, therefore nothing but quality goods will do on our shelves.

We pride ourselves on serving more friends than any other institution of its kind in Vernon.

Thirty-two years ago this business was founded in this city and we believe it is only reasonable to state that

GOD'S FOOLISHNESS WISER THAN MEN

THE CHRISTIAN MINISTER SAYS
WORLD IS PRONE TO
SCOFF AT WORD

"The Foolishness of God," a recent sermon by Rev. Gus Ramage pastor of the Christian Church, is printed here with the request of numbers who heard it. The text which is drawn from the first Corinthians, is "Because the Foolishness of God is Wiser Than Men; And the Weakness of God is Stronger Than Men." The sermon is a straight from the shoulder, matter of fact discussion of a topic that is naturally of great interest to everyone. The one outstanding thing about the plan of salvation, said Mr. Ramage, is its simplicity. The great barrier that stands between man and the plain teaching of Jesus Christ is the wisdom of the world. Man has become so wise in his own conceits that he has supplanted his own wisdom for that of the Lord. Today we hear the great men of the world tell that the book of Genesis is but a myth and they laugh at the story of Jonah and the whale. This is because they cannot reason these things in the light of nature.

Draws From Old Testament.

The Christian minister went back to the Old Testament for examples of the wisdom of God. The actions of Noah, he said, would be considered those of a lunatic today, as they were in his time. But later events revealed that building the ark was the wisest thing to do after all.

When deadly serpents came into the camp of the Israelites Moses made a brass serpent and put it upon a pole and told the people they would live if they would only look upon it. This seemed so foolish that many refused to do so and as a consequence perished. However, those who obeyed the direction, which was from God, were saved.

Naaman went to Elisha to be cured of the leprosy. Mr. Ramage related. He was told to go dip himself seven times in the river Jordan but this he decided was a foolish thing to do and he preferred going home and bathing in the waters near where he lived. However, he was persuaded by a servant to try the prophet's remedy and as a result, he was cleansed of his leprosy.

Directions Won Victory.

Gideon and his army and the capture of Jericho also served as examples in Mr. Ramage's sermon. On both these occasions, he said, the directions appeared to be foolish but following them resulted in victory in each case.

Drawing examples from the New Testament Mr. Ramage mentioned the birth of Christ and how disappointing in manner it was to the Jews. They had expected their Savior to be born of rich and prominent parents and choose for his disciples men of wisdom and high standing. This manner of coming into the world appeared to them as foolish.

Jesus also told the blind man to go wash in the pool of Siloam and until this poor fellow had obeyed Jesus he was without sight. After obeying this command he came seeing. Still, at the outset this direction from Christ appeared to be extremely foolish.

Should Obey Christ's Plan.

Mr. Ramage exhorted his congregation to obey Christ's plan. It may seem foolish, he said, but it means eternal life. It is necessary that we believe in the death, burial and resurrection of Jesus as it is impossible to be well pleasing to God without possessing these convictions. In this plan is commanded repentance as well as baptism. We must obey His commandments, live the Christ like life even unto the end.

Because God's way seems foolish to our way of thinking we may substitute one thing for the other and change the world. This is not according to God's plan, however, and the only safe method is to obey that form of doctrine which was delivered to us.

CHEERFUL WORDS

For Many a Vernon Household.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove helpful to hundreds of Vernon readers.

Mrs. J. T. Saunders, East Texas st., Vernon, says: "I know just what Doan's Kidney Pills are for I have used them on different occasions when I was in need of a kidney remedy. When my kidneys have been a little out of order, or my back has ached from doing my housework I have taken Doan's Kidney Pills and they have always given me splendid results. Another member of my family has also used Doan's Kidney Pills and had good results and praises them highly."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Saunders had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Adv 11

PROPER CARE LENGTHENS LIFE OF ALL LEATHER PRODUCTS

Good Harness With Suitable Care Will Last 20 Years or More—
Frequent Washing and Oiling of Leather Are
Simple Methods Needed.

It is poor business to neglect the care of leather. Every pair of shoes, every machine belt, piece of harness, or other leather product on the farm that is allowed to go to waste or not made to yield its full service must be needlessly replaced, thus adding unnecessary expense to the farm. Say specialists of the United States Department of Agriculture. On many farms a set of harness lasts less than 10 years. Where 8 or 10 horses are kept this means one new set of harness every year. The department has received many reports, especially from Southern States, showing that harness lasts only from 2 to 5 years. But good harness properly cared for, will last 20 years or more. In every neighborhood there are cases where farmers are cutting their harness bills in half by giving the leather a cleaning and oiling occasionally.

Fifty million pairs of shoes could be saved annually if the American people kept their footwear in repair, the specialists say. As a nation we buy some 300,000,000 pairs of shoes a year but if each individual cared for his shoes properly the needs could be supplied by 250,000,000 pairs. The wasting of a single shoe a year by each person in the United States would cost the country at least \$250,000,000 annually at present prices of shoes.

Any leather improperly used and neglected will deteriorate rapidly. Belts for driving machinery, for example, often become impaired, if not useless, within a few years even on straight drives, but when they are kept clean and oiled they will last from 10 to 30 years.

Selecting and caring for harness.

Harness that is too light or of poor quality can not give many years of service. In selecting harness it is more economical to get a set that is too heavy than one which is too light for the work required. Make sure especially that the reins, breeching, hold back straps, tugs or traces, bellybands, and yoke straps are strong. A runaway team can not be controlled with weak reins, nor will weak tugs and straps stand heavy work. No portion of the harness should show cracks on the grain side when the leather is sharply bent.

Harness should be washed and oiled when it becomes dirty or extremely dry. For washing, use tepid water, a neutral soap, such as castile or white toilet soap, and a sponge or fairly stiff brush. Hardened grease is very conveniently removed by scraping with a dull knife. Rinse in clean, tepid water, and allow the harness to stand in a warm place until it is no longer wet but still damp. Then oil it and leave it in a warm place for 24 hours before being used. Harness should be oiled or greased while still damp; otherwise it may take up so much grease that it will pull out of shape or take up sand and grit, which will injure it, as well as spoil its appearance. Harness should never look or feel greasy.

Neat's foot or castor oil or a mix-

ture of these with wool grease is good for driving harness. For heavy harness use a mixture of any or all of these with wool grease to make a paste, having about the consistency of butter. Apply the grease lightly to driving harness and liberally to work harness. Rub the oil or grease, warm to the hand, thoroughly into the leather while it is still damp from washing. After the harness has hung in a warm room overnight, remove with a clean dry cloth the excess of oil which the leather is unable to take up.

Keep Belts Clean.

In selecting a belt for driving machinery, make sure that it is wide and heavy enough for the load it is to carry. Ordinarily the competent belt maker's advice as to the proper belt for a given installation should be followed. If the belt is not suited to the work it gives trouble continually, causing shutdown of machinery that will soon cost more in loss of time and wages than many good belts. It should always be sufficiently flexible to cling closely to the smallest pulley over which it passes. A belt will not give satisfactory results if it slips, does not run true, is not properly laced, is run too loose or too tight, is subjected to rapid changes from light to heavy loads, is alternately wet and dry, is run on pulleys that are not true or are too small for the weight and thickness of the belt, or is neglected and allowed to deteriorate for lack of grease.

The belt should be wiped off every night to prevent dust, dirt, or oil from working into it. When the belt needs oiling clean it well, especially on the pulley side, by washing with warm water and a good neutral soap. Wash rapidly and do not permit belt to become wet, as it will then stretch and slip. Apply the dressing lightly and evenly by rubbing it in with cotton waste or a piece of felt, and allow it to soak in the belt overnight. Among the best belt dressings are mixtures of cod and neat's-foot oils with tallow and wool grease, free from mineral acid.

SUCH IS LIFE.

"Eighteen years ago I had three ribs broken, fourteen years ago my right leg; eleven years ago I nearly went over with typhoid fever and since then have had awful stomach and liver trouble. Was filled with gas most all the time. I would have colic attacks so bad as to become unconscious. No medicine helped me and doctors advised an operation. One day talking with a stranger he recommended Mayr's Wonderful Remedy, which helped me at once." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. No dose will convince or money refunded.

CITY CONSUMES 500,000 GALLONS OF WATER DAILY

Summer Use Considerably In Excess Over Winter Consumption—Superintendent Issues Caution Against Leaks—Outlines Two Main Causes For Complaints Of Patrons.

Five hundred thousand gallons of water a day are consumed in Vernon this summer, according to an estimate made by the city engineer, A. J. Robinson. An extra burden is added to city pumps at this season of year because of the freer use of water for all purposes. Sprinkling of lawns is one of the primary causes. In the winter the average daily use is 300,000 gallons.

Leaks are one source of tremendous outlay both in water and expense, according to Mr. Robinson. Consumers often complain that bills are excessive, when in truth the reason for the apparent high charge can be found in defective stop cocks or plumbing.

Leaks Run Bills Up.

Stop and waste cocks in yards are a common source of leakage, according to the city engineer. Their use is intended for cold weather only, but many persons find it more convenient to use these devices in place of faucets. As a consequence they become badly worn and permit water to leak continually. This causes bills to run up to what appear excessive figures.

Defective plumbing is another cause for high charges, the superintendent stated. Toilets, especially, often leak and a stream only one-eighth of an inch in diameter will waste 20,000 gallons a month. A forty pounds to the inch pressure maintained in the pipes continually forces the water out.

There is no inclination on the part of the water department to run rates up, said Mr. Robinson. On the contrary, every effort is made to maintain as economical a schedule as possible, but funds must be sufficient to sustain the service. In the event that consumers would observe caution in preventing leaks and consequent waste, he said, there is a possibility that rates could be made lower.

FORMER VERNON GIRL WEDS.

Miss Anna Tooley of Sulphur Springs Marries Pharmacist And Will Live In Estelle.

Miss Anna Tooley of Sulphur Springs and John Vardy of Estelle were married at the home of the bride Wednesday, according to word received by friends in Vernon. The young couple will be at home in Estelle about August 1.

The bride is a daughter of Rev. and Mrs. L. B. Tooley, who formerly lived here. Miss Anna was a student in the local High School, and graduated from Holcomb's Training School, after which she attended the College of Industrial Arts at Denton. She is a niece of Rev. R. V. Tooley, pastor of the Methodist Church at Tolbert.

Mr. Vardy is a graduate of the Wuester School of Pharmacy in Wichita, Kansas, and is employed at Estelle.

Has Remarkable Wheat Yield.

A wheat yield of more than thirty-seven bushels to the acre has been reported to the county agent from the H. Hildebrand place, north of the river. The farm is on mixed land and contains exceptionally rich soil. It is rumored that one farm near Crowell produced forty-eight bushels to the acre.

REAL ESTATE TRANSFERS.

Sheriff's Force Busy.

A negro man and woman were taken into custody last night by the sheriff's force for alleged immoral conduct. Two white men were also arrested on the charge of drunkenness.

HARING ASSISTS BOYS TO LAUNCH ROWBOAT.

Acting as sponsor at Raritan, N. J., of a rowboat made by a nine-year-old boy, President Harding delivered a Fourth of July oration of a single sentence in tribute to the aspirations of America's boyhood. The diminutive craft, which inspired the coast, was the Raritan, nine feet over all, conceived and built by Joseph Frelinghuysen, Jr., son of the senior Senator from New Jersey, at whose home Mr. and Mrs. Harding were guests. The bank of an artificial lake was the scene of the launching and will be the home port of the Raritan as she sails a tramp course in search of misdirected golf balls. Specially constructed ways, whose upper end rested on a soap box, guided her down the bank. The President broke a heribonned bottle of mineral water across her bow and said: "As a tribute to American boyhood, who build castles in the air, who build boats and whose achievements in the future will build this country, I christen this boat, the handiwork of Joe Frelinghuysen, the 'Raritan.'" The photo shows the President christening the boat, with little Joe at the helm.

CLOTHING CONTEST JUDGING SATURDAY

COUNTY GIRLS WILL SUBMIT ARTICLES OF WEARING APPAREL.

Articles submitted in the county club girls' clothing contest will be put on exhibition Saturday morning at 10:30, and judging will commence at 2 o'clock in the afternoon. County home demonstration agents have announced that all girls entered must be present when the award is made. First prize will be a trip to Texas A. and M. College July 25 and a week's attendance at the short course offered by the institution.

Nineteen girls are entered in the county clothing contest. Seven of these are from Odell, seven from Harrold, and five from Oklaunion. Judges selected by the Federated Clubs will be Mesdames O. A. Brunson, A. C. Roger, and Shirley Cook.

Set of School Clothing.

Preparation for the contest has been in progress for several months. The competition was announced about the first of the year, but a majority of the girls have waited until school duties ceased to press before commencing work on the wardrobe. The articles on exhibition will make up a complete set of school clothing, most of them being fashioned by the girl submitting them.

PRESIDENT HARDING IS AN ENTHUSIASTIC GOLF PLAYER

President Harding

President Harding "putting off" on a tee on the course near the home of Senator Frelinghuysen, at Raritan, N. J. President Harding is an ardent golf fan and plays whenever he gets the chance, which is not very often.

TWO CONTESTS OPEN GOLF TOURNAMENT

MORRIS AND HUGGINS ARE WINNERS IN FIRST ROUND OF PLAY.

Only two flights of golf were played yesterday in the second tournament in progress at Hill Crest Country Club. G. C. Morris eliminated Frank Murchison 57 to 64 and Wallace Huggins vanquished Wylie Bennett in twelve holes. Morris and Murchison were tied in strokes at the end of the sixth holes but the former holed out in seven strokes less when the final count came.

Huggins and Bennett battled nine holes to a tie, 79 strokes, each, and played three holes to decide the rubber this morning. Huggins won 28 to 29. Both matches were played over the entire course, thus accounting for the comparatively high scores.

Were Many Forfeits.

The first day's play was featured by forfeits, most of these being due to the fact that numbers of participants are out of town. John Storey forfeited to J. A. Birdsong, Eric G. Schroeder forfeited to Luther Webb, E. P. Hicks forfeited to Hy Rogers, L. G. Hawkins forfeited to W. K. Long, R. D. L. Kilbough forfeited to H. E. Rogers, and L. E. Piper forfeited to Emory Rhoads.

Matches scheduled for today are E. C. Christian vs. W. D. Berry, and R. H. Coffee vs. L. K. Johnson. A. B. Smartwood and W. N. Stokes are slated to play tomorrow.

Grounds at Hill Crest are in excellent shape for the tournament. The bottom land has been mowed and the greens improved.

Married At Court House.

Earl W. Hughes and Miss Sibbie Lee Jonett were married Saturday, July 9, at 3 p. m. in the office of Justice of the Peace T. J. Griffiths. The bride is a daughter of Mr. and Mrs. L. P. Jonett and Mr. Hughes lives near Condon Springs. They will make their home in Vernon.

FIRST MEETING OF MILITIA IN COURT ROOM THURSDAY

Live Speakers Will Address Those Present, and Questions Concerning Organization Will Be Answered—Recruiting Office Aids Materially in Obtaining New Members.

A smoker in the district court room will open the first meeting of local militia Thursday evening at 8:30. Every man over 18 years old who is interested in the organization and all members who have made application to belong are especially urged to be present. Questions will be answered and there will be talks by energetic speakers.

A recruiting office has been opened by local militiamen in the downstairs room of the Sigler building and will continue there the remainder of the week. Captain Clyde Watts is in charge and he is assisted by J. V. Russell, Elzy Youngblood, and Jim Bomar. Recruiting has been stimulated appreciably since the office was opened and Saturday, especially, proved a banner day for new members.

At least fifty bona fide members is the aim of the local militia company. An attempt will be made to obtain sixty-five which is full war strength.

CALLEO WILL WRESTLE JULY 22.

Omaha Wrestler Is Substituted For Ackerman On That Date—Irishman Coming Later.

Gus Calleo, middleweight wrestler of Omaha, Neb., and not Al Ackerman will be the opponent July 22 of Young Gutch in a match staged here under the auspices of the Vernon Athletic Club, according to an announcement made yesterday. Ackerman has a contest scheduled at Wichita, Kans. about that time and will not be able to make his appearance then. However, the burly Irishman will come soon after for a match here with Gutch.

Calleo is a fast, powerful grappler and should give Gutch an interesting match. His prowess extends largely to the middle west but he is being brought here under high recommendations.

Arrangements are under way to have the Gutch-Calleo match in the Opera House.

TOLBERT REDS WIN OVER BLUES IN PENNY CONTEST

A contest for sixty yards of pennies waged between Tolbert Methodist teams called the Reds and Blues closed Saturday night with 83 1-4 yards for the Reds and 76 1-4 yards for the Blues. Oscar Tooley was the leader of the winning team, and Montette Brooks of the losers.

A few weeks ago the Sunday School was divided into the two aggregations and it was decided that the winners would eat ice cream and cake while the "runners up" would feast on cheese and crackers. Both teams, however, enjoyed ice cream and cake after an interesting program last Saturday night.

Marriage Licenses Issued.

Marriage licenses were issued July 9 to Earl W. Hughes and Miss Sibbie Lee Jonett, July 9 to John Webbs and Lonella Sankey, negroes, July 9 to Evey Ollens and Mrs. Alice Davis, July 10 to Fred Nelms and Jimmie Long, negroes.

FIRE BREAKS OUT EARLY IN MORNING

CITY DRUG STORE AND ADJOINING BARBER SHOP BADLY DAMAGED.

Fire which broke out about 3:40 Saturday morning in the City Drug Store on North Main street caused considerable damage in the establishment as well as in a barber shop one door south. The origin of the fire is unknown and was discovered by the night watchman who fired his revolver several times to give the alarm. The fire station was finally reached from the White Rose Cafe.

Smoke caused a great part of the damage, and a large plate glass window in the front of the drug store was cracked. The interior of both barber shop and drug store suffered materially from water, and Saturday owners of both establishments were unable to estimate their losses.

Only Minor Insurance.

R. A. Albert is proprietor of the City Drug Store. He carried only a small amount of insurance on his stock. O. B. Dawdy, proprietor of the barber shop, carried \$2,000 insurance on his establishment and believes this may cover the major part of the loss.

Attend Dance at Electra.

Numbers of Vernon young people went to Electra Friday night to attend a dance. Those in one party were Misses Geraldine and Mozelle Parker, Laura Tankersley, Bernice Towle, Maudie and Beulah Ladd, Bertie Hiatt, Charley Mae Northcraft, Ruby Thomas, Annie Greever, Thelma Batchelor, Doris Roger, Woody Dixon, and Messrs. H. A. Wallace, Orba McCurdy, Elzy Youngblood, Alfred Butler of Mineral Wells, Aubrey Foster, Evans Mason, Frank Nicholson of Wichita Falls, Roy Roger, Frank Finley, Russell White, Harold Shive, Clyde Batchelor, and Glen Knight.

CHICAGO MAN HEADS INSTITUTE.

Dr. H. W. Nutt, Of National Reputation, Will Conduct Meeting at Wichita Falls.

Dr. H. W. Nutt of Chicago will in all probability conduct the teachers' institute that will be held in Wichita Falls from September 5 to 9 inclusive, according to E. L. Dehoney, local school superintendent. Dr. Nutt is nationally known as an educator, and is the author of several books.

Four counties are now embraced in the institute. Archer has been added to Clay, Wichita, and Willbarger counties. Attendance at the meetings is compulsory from all teachers.

Mr. Dehoney heads the executive committee of the entire institute.

Honey Grove Visitors Here.

Miss Floy Seay and Miss Lorene Murphy of Honey Grove are the guests of Mrs. Carl King. Cards are out for a party at Mrs. King's home on South Cumberland street Friday, when local young women will meet Mrs. King's guests.

Notice O. E. S.

The E. T. Murchison Chapter No. 424, O. E. S., will meet in regular session at 8 o'clock Friday night. Usual business will be transacted and installation of officers will be held. A large attendance is desired.

HARVEST SEASON HELPS COLLECTIONS

MERCHANTS STATE OLD DEBTS ARE BEING SETTLED MORE READILY

Inquiries from Vernon merchants concerning collections divulge the fact, that, for the most part, payments are more satisfactory at this time than for many months. Responses to the query as to whether the average debtor is meeting his obligations ranged from hearty acknowledgment in some instances to "a little better" in others.

Collections are fine for an implement company on North Main street. Wheat has been threshed somewhat earlier than at first anticipated, said one of the proprietors, and as a result more money is now in circulation instead of being delayed until the first of the month.

"Wheat has done very well this year," he said, "and we only have to look around to see how well off we are."

Old Debts Being Paid.

Collections are being made from some who deferred payment before, a fire merchant on Main street said. On the whole, business is not greater in volume than heretofore, but one can notice an increase in the sale of castings and parts due to the harvest season. Farmers and others, he said, are patching up their cars and machinery more this season than ever before.

Clothing merchants interviewed remarked that business is picking up but that many patrons had gotten out of the habit of "settling up." Grocery stores and ladies ready-to-wear establishments have felt no appreciable increase as yet from the influx of wheat. The jewelry business, one local merchant remarked, is affected more by cotton than wheat.

There appears in general a spirit of optimism on the part of Vernon merchants. Times are growing somewhat better, at least, and prospects, many think, are that improvement will continue steadily.

MRS. C. S. FOLTZ HEADED FOR ASSISTANT ATTORNEY-GENERAL.

It is rumored in Washington that Mrs. Clara Shortridge Foltz, sister of Senator Shortridge, of California, is to be appointed Assistant Attorney-General to succeed Mrs. Annette Adams, who resigned recently.

HOME ECONOMICS ADDED TO LOCAL SCHOOL COURSES

Instruction in Spanish and Trigonometry Will Also Feature In High School Work for Coming Year—A. F. Winston Made Principal of Institution—Five New Teachers Appointed.

Business of moment at the meeting of the Vernon school board last Friday involved the installation of three new courses in the curriculum of the high school, and the selection of A. F. Winston as principal of that school. Home economics, Spanish, and trigonometry will be added to the studies next year for the first time in the history of local schools.

Partitions will be put in numbers of rooms on the second floor in order to accommodate the domestic science students and estimates are now being made for the work by local contractors. E. L. Dehoney, city superintendent of schools, will visit several towns where home economics are taught in the schools with a view of determining the best arrangement and equipment for the conduct of this course. For the most part, however, the suggestions of the State home economics director will be followed in the installation of equipment.

All Are Beginners.

"Next year everyone will be a beginner in Spanish," said Mr. Dehoney this morning, "but we expect to teach at least three years in that subject."

Miss Frances Oliver will teach in this course. Mr. Dehoney may serve as instructor in trigonometry.

The selection of A. F. Winston as principal of the school is not a surprise to most local school patrons. Mr. Winston has a broad experience as both teacher and principal, and is most capable to fill his new office. He will probably teach sciences. He takes the place of W. C. Smith, principal last year.

Five New Teachers.

Five grade teachers were appointed at the meeting Friday. They are Misses Grace Tyree, Rena Bates, and Joyce McBeath, who will teach in the Central school, and Miss Juanita Watson and Mrs. Flora M. Martin who will be on the staff of the Shive school. The grades each will teach have not as yet been assigned. Their appointments fill all vacancies for the present.

Buildings and grounds will be put in shape in the near future for the opening of the school term September 12. City Commissioners have agreed to clean up part of the Shive school grounds by the removal of a rock pile which remained from the time West Texas street was paved, and the Central school grounds will likewise be cleaned up. It is planned to level all the school premises and sod them. Buildings will also be overhauled.

GROWING TRUCK IN ARKANSAS.

C. F. Newth, Visiting Vernon For First Time, Says Farmers Are Diversifying In His State.

Truck growing is fast taking the place of cotton in Southwest Arkansas, according to C. F. Newth, who is in Vernon on a visit to his son, F. A. Newth of The Record. This is Mr. Newth's first visit to Wilbarger county. He is very much impressed with the appearance of things here, but doubts if the soil is quite so fertile as around his home town, Prescott, Ark.

Farmers around Prescott have made marketing connections, and are finding welcome relief from growing cotton in producing truck. Mr. Newth says. Everything grows there. Prescott is only a short distance from one of the greatest Elberta Peach orchards in the world.

Peaches are not quite up to the standard this year, Mr. Newth says.

Good Rain at Farmers Valley.

An excellent rain fell Sunday in the Farmers Valley community, according to C. M. Blair, who with his family, spent the week-end in that locality and Medicine Mound. The moisture was greatly needed, Mr. Blair said, and there was considerable rejoicing on the part of the farmers.

Infant of R. P. Small Dies.

Little Joyce Leona Small, 26 days old, child of Mr. and Mrs. R. P. Small, died at 8:30 o'clock this morning. Funeral services were conducted at the residence at 5:30 this afternoon, and burial was in East View Cemetery.

CANDYLAND**TWO NUTRITION CLASSES FORMED**

TWENTY-TWO CHILDREN ATTEND AT FIRST MEETING OF UNDERWEIGHTS.

Twenty-two children and their mothers were present Saturday afternoon at the first meeting of the nutrition class formed by the county Red Cross nurse. Those present were divided into two classes of eleven members each, and one organization will meet at 10 a. m. each Wednesday and the other at the same time each Thursday. The class meetings will be conducted for three months.

Chocolate milk shakes were served the children Saturday, and some form of nourishment will be given each time the respective classes convene. Stories were told also and talks were made. Miss Lacy discussed with the mothers various foods and their values, and Miss Eilmann talked to the children on health habits.

Are All From Vernon

The classes are made up of children from 5 to 8 years old and some of them according to Miss Eilmann, are as much as twenty per cent underweight. The children, all of Vernon, are about evenly numbered as to boys and girls. As far as is known this is the first class of its kind in the State conducted under the co-operation of both county home demonstration agents and Red Cross nurse. Mothers are manifesting a great amount of interest, it is said. Any children underweight are invited to attend the classes.

ON THE WING.

(By D. W. Leigh.)

With the "Flying Dutchman" attached to the buggy, we left town last Wednesday morning with Oklahoma, eight miles east on the Denver railway, as the objective, arriving late in the afternoon. En route, we left the main road at the Krebs farm going by way of Kingola, traversing part of the Dawson Valley. This section fringes the Peace river for several miles which, with thousands of acres of waving corn, maize and cotton, mingled with fields of wheat in the shock and in some instances threshers with hot-fired crews separating the grain from the straw, was a revelation to a stranger, besides bearing minute but eloquent testimony to the agricultural possibilities of Wilbarger county.

With few exceptions the crops were remarkably clean and growing rapidly. Hogs and poultry gave evidence of thrift on the part of farmers and their wives, while flowers, shrubbery and shade trees are indicative of refinement and civic pride. Oklahoma is a live village with two cotton gins, bank, elevator, garage and three or four stores. Clay Britte is Uncle Sam's man who weighs the packages, sells the stamps and hands to the girls of the town and country the love letters written by the boys. The town is surrounded by rich prairie lands producing big crops of grain and in consequence is a splendid market for the country's products.

Settled in 1879.

Within one mile of the prosperous village, is one of the handsomest rural homes we have seen in the northwest. We refer to the two story brick residence of Mrs. I. M. Smith. It was erected on an eminence overlooking the country for many miles and from her front porch one can see part of Southwest Oklahoma lying several stretches to the north, and many other objects in either direction with dozens of miles intervening.

B. F. Simmons resides two miles west of the town on a farm which he settled in 1879, and when there were only five other families in the county. The country was barren and the only inducement offered a settler was cheap land sold by the State at \$1.00 per acre on forty years time with only 5 per cent interest.

Proceeding westward from Oklahoma we passed through the East Vernon school district leaving behind fine

farms, promising crops, neat and attractive homes. Threshing was in progress in many fields and the yield from 12 to 25 and in one or two instances, 30 bushels per acre.

On Commissioner A. M. Bourland's farm we caught a glimpse of some thoroughbred Poland Chinas. They are of the big bone type and the pioneer of this particular breed should receive the encouragement and success so justly due him.

Good Wheat at Lockett.

Lockett is in the midst of a fine farming country. Good wheat, promising crops of corn, cotton, and maize, with alfalfa yielding two tons per cutting, are encouraging signs of returning prosperity.

Kincheloe is laughing itself hoarse because of its good crops. Corn is practically made and there will be plenty and to spare when the rats get their quota. Maize is in the head and cotton in full bloom; alfalfa cut, baled and stored. On this jumbo farm (more than three sections we are informed) T. E. Davis is introducing thoroughbred Durac Jersey hogs to his neighbors. He will reap his reward because the day of the scrub is gone.

We noted along the way that our good women are raising more and better fowls than formerly. On last Saturday the writer ate dinner with Mr. and Mrs. Roy Ferguson, the latter placing before this hungry pencil pusher a fried Buff Orpington.

During the four days itinerary we were the recipient of many courtesies and the kind hospitality of the following homes: Mr. and Mrs. L. E. Canifax, Mr. and Mrs. W. P. Nettles, Mr. and Mrs. T. J. Kern, Mr. and Mrs. T. E. Davis. In soliciting subscriptions to The Vernon Record we succeeded in placing the following on the

Roll of Honor:

J. N. White, W. J. Ellis, T. E. Davis, F. E. Stone, L. E. Canifax, Mrs. W. S. Bourland, W. P. Nettles, Mrs. I. M. Smith, B. F. Simmons, A. B. Jarrell, Mrs. A. C. Lee, T. J. Kern, C. W. Squyers, H. A. Hill, S. C. Davenport, J. L. Goodman, T. E. Davis, A. J. Slaughter, Roy Ferguson.

It is our purpose to meet and form the acquaintance of the people of Wilbarger county and our burning desire is to place them permanently on the honor roll.

Vernon, July 11th.

Couldn't Help It.

Nance Odlen is a clever little crook having been trained by Tom Dorgan. Simulating an unbalanced mind she allows herself to be taken into the Ramsey home following a theft from the man of the house in which she has been an aide. In this home she meets Latimer, Nellie Ramsey's fiancé. He learns her true position and befriends her and helps her to make something of her talent for art. Later Dorgan escapes from prison and comes to her studio and she is accused of theft through a plot arranged by Nellie. She escapes however and finds happiness in Latimer's love for her.

Christian Sunday School ball players fell like demons on the offerings of Methodist pitchers yesterday and battled their way to a 14 to 3 victory over the disciples of Wesley. Key and Norwood were both hit hard, and Sheppard and Bridges of the winning team connected for home runs. The latter garnered four safe blows from as many trips to the plate. Jones, Christian third baseman hit safely three times out of four times at bat.

None of the Methodist players were able to annex more than one hit, and Johnson pitched an excellent game. He struck out fourteen men.

WINS SECOND PLACE IN ESSAY CONTEST

HARROLD LAD IS AWARDED HONORS IN STATE-WIDE COMPETITION.

Second prize with a grade of 94 has been won by Abner Morris of Harrold in a State essay contest recently conducted by the Mistletoe Creamery Co. on "Why I Would Like To Be a Dairy Farmer." First prize in the competition carried with it a scholarship to the Texas A. and M. short course, or equivalent to about \$80.

The contest was open to any club member of the State. Four participated from Wilbarger county.

Following is the essay submitted by young Morris and which was awarded second prize:

Why I Would Like to be a Dairy Farmer.

There are several reasons why I would like to be a dairy farmer. Land is now getting very high throughout the United States. Some domestic animal must be kept on this land so as to make the largest profit on the smallest area. The dairy cow is one of the best for such conditions. Beef cattle were formerly raised in the United States very extensively, but now they are gradually disappearing and dairy cattle are taking their place.

People are now realizing the high food value of milk and its products and also its healthfulness. Many dairy cows give enough milk and butterfat in one year that the food value in it amounts to three times the food value in a large steer. Since milk and its products are so highly demanded, a good steady price will always be offered for both.

Dairy farming has the following advantages:

First: The dairy cow is well suited to diversified and intensified farming when the farmer works to produce a very great income from a small acreage. Examples of this are found in Holland, Denmark and the Island of Jersey, where great profits are yielded on such a small area.

Second: If the manure is properly kept and used dairy farming increases the fertility of the soil. If corn or other such plants are raised continually on land, it will soon become infertile. Since the manure helps the land the production of milk and butterfat takes much less food value from the soil than plants.

Third: The dairy cow brings in a continuous source of revenue. When the steer is fattened and killed his profit and production ceases.

Fourth: Skim milk, clabber and butter milk yield large profits, if properly fed to hogs and poultry.

Fifth: Good grade and purebred cows have a ready sale. The demand being so high, it is very profitable to raise this kind of stock.

Sixth: There are many different breeds of dairy cattle to choose from. The most important breeds are the Jersey, Holstein, Guernsey, Ayrshire, Brown Swiss and Dutch Belted. The Jersey and Holstein being the most popular throughout the United States.

Seventh: A dairy cow can be judged by her appearance alone.

These advantages of dairy farming show that dairy cows can be kept at a large profit. Often times where a large herd of cows could not be kept on a farm a few could be kept at a large profit. The average man works only about half the year on his farm, leaving a long period without work. The carpenter who works only half the year is not likely to accumulate much property, nor is the farmer who works only half the year likely to pay for a farm. A limited number of cows on the farm gives employment in the morning and evening when field work cannot be done. They also provide work that children can do before and after school.

Dairy farming is a very healthy, prosperous and honest business. It can be carried on very successfully with the rest of the farm work. Many records have shown this. All of these reasons explain why I would like to be a dairy farmer.

White City.

White City, July 11.—(By special correspondence.)—Cotton is fine in some places locally. Acreage is greatly reduced in this vicinity and a great deal of wheat, oats and feed stuff are taking the place of cotton.

The singing at White City Sunday afternoon was much enjoyed.

The Williams quartette of the Trio Music Company rendered some especially fine numbers. Among other prominent singers present were: Prof. Guy Rowe, J. S. Archer, Mrs. Will Lawson, Mr. and Mrs. Claud Brock, Mr. Brock and Grandpa Lundy, all of Tolbert, Mr. and Mrs. Castberry and daughter, Miss Augusta of Fargo.

The young people enjoyed a singing at the home of Mr. and Mrs. C. N. Hobson Sunday night.

Among the Vernon visitors Saturday were: Mrs. J. C. Hughes and sons, Mr. and Mrs. R. L. Olive, Mr. and Mrs. Raymond Olive, Rev. W. W. Adams, Miss Una Mae Adams, Luther Anderson, Gusta Hardage, Ovid Hobson, Jim Kays, and son, Phillip, R. L. Sellers, W. B. Covert, Luke and Clint White and Mrs. Phipps and baby.

Walter Starr of Vernon spent Sunday with his parents, Mr. and Mrs. J. P. Starr and attended singing at White City in the afternoon.

Miss Thelma Killough of Pleasant Valley visited Miss Una Mae Adams Sunday.

Mrs. Hobs of Fort Worth is visiting her daughter, Mrs. Rob Hobson.

Mr. and Mrs. Pony Key of Vernon are visiting their parents, Mr. and Mrs. C. N. Hobson.

Miss Muriel Olive of Haulk Hill took dinner with Miss Fannie Gamitt Sunday.

Mr. and Mrs. Lee Armstrong of Doans are visiting their parents, Rev. and Mrs. W. W. Adams.

Little Glenn Knapp entertained with dinner Sunday in honor of his eleventh birthday. Those present were: Tommie Killough of Pleasant Valley, Ruth and Doris Armstrong of Doans, Aubrey Adams and Maurine, James, and Glenn Knapp. Glenn is improving from an extended illness.

Wildcat News.

Wildcat, July 11.—(By special correspondence.)—Ladies of the Wildcat club met with Mrs. G. W. Hildebrand last Tuesday with Miss Edith Lacy and Miss Eula Goodfellow, County Demonstrators, as instructors.

The day was spent in canning beans and black eyed peas and making jelly. One hat was made and one dress cut out.

The demonstrators also taught the ladies new fancy stitches and how to make the trimming for dresses known as points.

At noon, the ladies enjoyed a bountiful dinner, and in the afternoon were refreshed with lemonade.

Those present were Mesdames G. W. Hildebrand, Alice Simpson of Clarendon, J. L. Burk, Sam Wallace, John Owens, Virgil Hildebrand and Misses Edith Lacy, Eula Goodfellow, Maude and Ada Hildebrand, Cora Liles, Gussie Norton and Bentah Burk.

The club adjourned to meet with Mrs. Nual Brooks, the first Tuesday in August.

HOW WILL YOU VOTE?

Five amendments are to be voted on
by Texans Saturday week. These propo-
se to increase the salaries of the six
executive officers of the Common-
wealth; to increase pensions paid Con-
federate soldiers; to change compensa-
tion of members of the legislature; and
to amend the suffrage article in the
Constitution; and an amendment relat-
ing to the Prison Commission.

The pay of the governor, his co-
workers, and the legislators was fixed
nearly half a century ago, and what
seemed liberal then is utterly inade-
quate at this time. The sacrifice re-
quired of a man who would fill a State
office in Texas is such that very few
poor men can aspire to such service.

Texas is amply able to pay the men
who manage affairs of State, and The
Record is of the opinion that to place
the business of the State on a basis
somewhat more nearly akin to the
methods of business institutions would
result in appreciable savings, even
though such men might have to be paid
somewhat more than the limits fixed
by our Constitution permit.

With the governor paid \$4,000 a
year; the attorney general \$4,000 a
year; the superintendent of public in-
struction, \$4,000; while the secretary
of state and treasurer each receives
\$2,500 a year. The legislators receive
\$5 a day for the first 60 days, together
with certain travel allowances.

It must be manifest that these al-
lowances are inadequate.

The other amendments will be taken
up another time.

SURPRISING DISINTEREST.

Lack of interest in testing cows for
tuberculosis is surprising, when it is
understood that milk from a tubercu-
lous animal is the most prolific source
of that dread disease which continues
to take by far the heaviest toll of hu-
man life.

Two years ago considerable interest
was worked up. Men and women who
had never given the subject a thought
realized that where they saved a few
dollars by not having their cows tested,
such economy was had at the risk
of every son or daughter in the home.

The law is clear, as we understand
it. Persons selling milk and butter are
required to have their cows tested. Of
course, the law may not be enforced—
just as the ordinance against spitting
is not enforced.

Surely nobody wants to "lay down"
on this most practical method of help-
ing stamp out the great white plague.

HELP THE COUNTY FAIR.

Help the County Fair. By so doing
you help yourself.

One of the large purposes of the
County Fair is to bring country and
town folks together. Nor is the time
spent in thus mingling and finding out
something of the other's likes and dis-
likes by any means a loss.

When we understand each other bet-
ter there is a larger appreciation of
the aspirations of each; cursory jeal-
ousy fades away, and both town and
country take new interest in helping

the other become a better place to live.
If it were not for the inspiration of
seeing what the other man grows; the
sense of pride that comes of finding
out what a diversity of crops can be
grown, and what fine hogs, cattle,
horses, and chickens can be produced—
if it were not for these very real val-
ues—the mere fact of getting better
acquainted would be worth more than
it costs.

"When you come to know a fellow
and you understand his ways: Then
his faults don't really matter, for you
find so much to praise.

WILL NOT REDUCE POWER.

Disarmament is a consummation
which even those who have doubted
the wisdom of going unarmed are com-
ing to view as necessary if we would
avoid burying ourselves under the
avalanche of military and naval ex-
penditures. It is gratifying, therefore,
to note Lloyd George's statement that
England will meet the disarmament
plan with delight.

On the other hand, repeated state-
ments that "Disarmament will not re-
duce power;" "that the United States
Navy must equal any," seem unwise
to say the least. They sound greatly
like propaganda.

Is it not reasonable to assume that
every nation will insist on its present
status—that is, unless the burden is
already so great that it is impossible
to go on. The impossibility of going
on may be apparent to some, but to
other nations it is by no means con-
clusive.

Undoubtedly it is desirable that the
United States Navy should equal any.
On the other hand, it is questionable
wisdom to insist on this so strenuous-
ly as to defeat any plan for disarm-
ment. Above all, it seems unwise to
flaunt such sentiment just at this
time.

Thompson Community

Thompson, July 11.—(By special cor-
respondence.)—A light rain fell in
this community Sunday.

Mr. and Mrs. R. L. Sellers and three
children Cecil, Frances and infant son,
R. L. Jr., of the White City commu-
nity spent Sunday night with T. M.
Dennis of this community. Mrs. Sel-
lers and three children are going to
visit T. M. Dennis and family a week.

Brenlin

the long-wearing window
shade material

Be sure the window shades you buy
won't crack and break!

Ordinary window shade material is made of coarse
muslin which is filled with chalk and clay. The wear
of daily usage causes this filling to loosen and fall out,
leaving the shade full of cracks and pinholes.

But Brenlin wears and wears

Brenlin is made of fine, closely woven cloth which con-
tains not a particle of chalk, or clay, or other filling.

It wears and wears. Hangs smooth and straight. No
cracks, no pinholes deface it!

Tinted with the finest, fast colors Brenlin Window
Shades will not spot in the rain nor fade in the sun.
They wear three times as long as ordinary shades.

Come in and see the many rich colorings we have in
this long-wearing shade material. Let us show you how
little it will cost to shade your windows with Brenlin, and
help you select just the tone that will harmonize with
the color scheme of your room. Come today.

Mrs. Dalton Westmoreland of Dawson left this morning after a visit with her son Aubrey. Mrs. Westmoreland returned to Harrold to visit her daughter.

RED CROSS HINTS.

The Mosquito.

Few communities and localities are fortunate enough to be free from the mosquito, which announces his advent by his peculiarly unpleasant "song" with the opening of early summer and continues his career until far into the fall in many places.

Mosquitoes are disease spreaders and those maladies known to be carried by this insect are malaria, yellow fever, dengue fever, and filariasis. Breeding places, especially for the domestic mosquito, are in any small collection of water that may be present in tin cans, bottles, flowerpots, pools, gutters, sewers, etc. The malaria mosquito usually prefers the margins of ditches and lakes, swamps and low bottom lands.

Should Screen Buildings.

All buildings in localities infested with mosquitoes should be screened. No water should be allowed to stand in containers around the house. The grass should be kept cut short so it will not serve as a hiding place for mosquitoes. Low places should be drained by ditches. Oil may be used as a measure to prevent breeding. It should be placed in a fine film over the surface of the water, a light oil being best adapted for the purpose. It requires an ounce of oil for each 35 square feet of surface and must be renewed several times a month.

Itching and irritation from mosquito bites can be relieved by a lotion of carbolio acid. To make this lotion add a level tablespoon of borio acid powder and 20 drops of pure carbolio acid to a half pint of hot water. Stir well and shake until the borio acid is dissolved. Cool before using and apply by dabbing on with a wad of cotton or spraying on the surface with an atomizer.

GOD'S FOOLISHNESS WISER THAN MEN

THE CHRISTIAN MINISTER SAYS
WORLD IS PRONE TO
SCOFF AT WORD

"The Foolishness of God," a recent sermon by Rev. Gus Ramage pastor of the Christian Church, is printed here with at the request of numbers who heard it. The text which is drawn from the first Corinthians, is "Because the Foolishness of God is Wiser Than Men; And the Weakness of God is Stronger Than Men." The sermon is a straight from the shoulder, matter of fact discussion of a topic that is naturally of great interest to everyone.

The one outstanding thing about the plan of salvation, said Mr. Ramage, is its simplicity. The great barrier that stands between man and the plain teaching of Jesus Christ is the wisdom of the world. Man has become so wise in his own conceits that he has supplanted his own wisdom for that of the Lord. Today we hear the great men of the world tell that the book of Genesis is but a myth and they laugh at the story of Jonah and the whale. This is because they cannot reason these things in the light of nature.

Draws From Old Testament.

The Christian minister went back to the Old Testament for examples of the wisdom of God. The actions of Noah, he said, would be considered those of a lunatic today, as they were in his time. But later events revealed that building the ark was the wisest thing to do after all.

When deadly serpents came into the camp of the Israelites Moses made a brass serpent and put it upon a pole and told the people they would live if they would only look upon it. This seemed so foolish that many refused to do so and as a consequence perished. However, those who obeyed the direction, which was from God, were saved.

Naaman went to Elisha to be cured of the leprosy. Mr. Ramage related. He was told to go dip himself seven times in the river Jordan but this he decided was a foolish thing to do and he preferred going home and bathing in the waters near where he lived. However, he was persuaded by a servant to try the prophet's remedy and as a result, he was cleansed of his leprosy.

Directions Won Victory.

Gideon and his army and the capture of Jericho also served as examples in Mr. Ramage's sermon. On both these occasions, he said, the directions appeared to be foolish but following them resulted in victory in each case.

Drawing examples from the New Testament Mr. Ramage mentioned the birth of Christ and how disappointing in manner it was to the Jews. They had expected their Savior to be born of rich and prominent parents and choose for his disciples men of wisdom and high standing. This manner of coming into the world appeared to them as foolish.

Jesus also told the blind man to go wash in the pool of Siloam and until this poor fellow had obeyed Jesus he was without sight. After obeying this command he came seeing. Still, at the outset this direction from Christ appeared to be extremely foolish.

Should Obey Christ's Plan.

Mr. Ramage exhorted his congregation to obey Christ's plan. It may seem foolish, he said, but it means eternal life. It is necessary that we believe in the death, burial and resurrection of Jesus as it is impossible to be well pleasing to God without possessing these convictions. In this plan is commanded repentance as well as baptism. We must obey His commandments, live the Christ like life even unto the end.

Because God's way seems foolish to our way of thinking we may substitute one thing for the other and change the world. This is not according to God's plan, however, and the only safe method is to obey that form of doctrine which was delivered to us.

CHEERFUL WORDS

For Many a Vernon Household.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove helpful to hundreds of Vernon readers.

Mrs. J. T. Saunders, East Texas st., Vernon, says: "I know just what Doan's Kidney Pills are for I have used them on different occasions when I was in need of a kidney remedy. When my kidneys have been a little out of order or my back has ached from doing my housework I have taken Doan's Kidney Pills and they have always given me splendid results. Another member of my family has also used Doan's Kidney Pills and had good results and praises them highly."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Saunders had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Adv 11

PROPER CARE LENGTHENS LIFE OF ALL LEATHER PRODUCTS

Good Harness With Suitable Care Will Last 20 Years or More—
Frequent Washing and Oiling of Leather Are
Simple Methods Needed.

It is poor business to neglect the care of leather. Every pair of shoes, every machine belt, piece of harness, or other leather product on the farm that is allowed to go to waste or not made to yield its full service must be needlessly replaced, thus adding unnecessary expense to the farm, say specialists of the United States Department of Agriculture. On many farms a set of harness lasts less than 10 years. Where 8 or 10 horses are kept this means one new set of harness every year. The department has received many reports, especially from Southern States, showing that harness lasts only from 2 to 5 years. But good harness properly cared for, will last 20 years or more. In every neighborhood there are cases where farmers are entering their harness bills in half by giving the leather a cleaning and oiling occasionally.

Fifty million pairs of shoes could be saved annually if the American people kept their footwear in repair, the specialists say. As a nation we buy some 300,000,000 pairs of shoes a year but if each individual cared for his shoes properly the needs could be supplied by 250,000,000 pairs. The wasting of a single shoe a year by each person in the United States would cost the country at least \$250,000,000 annually at present prices of shoes.

Any leather improperly used and neglected will deteriorate rapidly. Belts for driving machinery, for example, often become impaired, if not useless, within a few years even on straight drives, but when they are kept clean and oiled they will last from 10 to 30 years.

Selecting and caring for harness.

Harness that is too light or of poor quality can not give many years of service. In selecting harness it is more economical to get a set that is too heavy than one which is too light for the work required. Make sure especially that the reins, breeching, hold back straps, tugs or traces, bellybands, and yoke straps are strong. A runaway team can not be controlled with weak reins, nor will weak tugs and straps stand heavy work. No portion of the harness should show cracks on the grain side when the leather is sharply bent.

Harness should be washed and oiled when it becomes dirty or extremely dry. For washing, use tepid water, a neutral soap, such as castile or white toilet soap, and a sponge or fairly stiff brush. Hardened grease is very conveniently removed by scraping with a dull knife. Rinse in clean, tepid water, and allow the harness to stand in a warm place until it is no longer wet but still damp. Then oil it and leave it in a warm place for 24 hours before being used. Harness should be oiled or greased while still damp; otherwise it may take up so much grease that it will pull out of shape or take up sand and grit, which will injure it, as well as spoil its appearance. Harness should never look or feel greasy.

Neat's foot or castor oil or a mix-

ture of these with wool grease is good for driving harness. For heavy harness use a mixture of any or all of these with wool grease to make a paste, having about the consistency of butter. Apply the grease lightly to driving harness and liberally to work harness. Rub the oil or grease, warm to the hand, thoroughly into the leather while it is still damp from washing. After the harness has hung in a warm room overnight, remove with a clean dry cloth the excess of oil which the leather is unable to take up.

Keep Belts Clean.

In selecting a belt for driving machinery, make sure that it is wide and heavy enough for the load it is to carry. Ordinarily the competent belt maker's advice as to the proper belt for a given installation should be followed. If the belt is not suited to the work it gives trouble continually, causing shutdown of machinery that will soon cost more in loss of time and wages than many good belts. It should always be sufficiently flexible to cling closely to the smallest pulley over which it passes. A belt will not give satisfactory results if it slips, does not run true, is not properly laced, is run too loose or too tight, is subjected to rapid changes from light to heavy loads, is alternately wet and dry, is run on pulleys that are not true or are too small for the weight and thickness of the belt, or is neglected and allowed to deteriorate for lack of grease.

The belt should be wiped off every night to prevent dust, dirt, or oil from working into it. When the belt needs oiling clean it well, especially on the pulley side, by washing with warm water and a good neutral soap. Wash rapidly and do not permit belt to become wet, as it will then stretch and slip. Apply the dressing lightly and evenly by rubbing it in with cotton waste or a piece of felt, and allow it to soak in the belt overnight. Among the best belt dressings are mixtures of cod and neat's-foot oils with tallow and wool grease, free from mineral acid.

SUCH IS LIFE.

"Eighteen years ago I had three ribs broken, fourteen years ago my right leg; eleven years ago I nearly went over with typhoid fever and since then have had awful stomach and liver trouble. Was filled with gas most all the time. I would have colic attacks so bad as to become unconscious. No medicine helped me and doctors advised an operation. One day talking with a stranger he recommended Mayr's Wonderful Remedy, which helped me at once." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. No dose will convince or money refunded.

CITY CONSUMES 500,000 GALLONS OF WATER DAILY

Summer Use Considerably in Excess Over Winter Consumption—Superintendent Issues Caution Against Leaks—Outlines Two Main Causes For Complaints Of Patrons.

Five hundred thousand gallons of water a day are consumed in Vernon this summer, according to an estimate made by the city engineer, A. J. Robinson. An extra burden is added to city pumps at this season of year because of the freer use of water for all purposes. Sprinkling of lawns is one of the primary causes. In the winter the average daily use is 300,000 gallons.

Leaks are one source of tremendous outlay both in water and expense, according to Mr. Robinson. Consumers often complain that bills are excessive, when in truth the reason for the apparent high charge can be found in defective stop cocks or plumbing.

Leaks Run Bills Up.

Stop and waste cocks in yards are a common source of leakage, according to the city engineer. Their use is intended for cold weather only, but many persons find it more convenient to use these devices in place of faucets. As a consequence they become badly worn and permit water to leak continually. This causes bills to run up to what appear excessive figures.

Defective plumbing is another cause for high charges, the superintendent stated. Toilets, especially, often leak and a stream only one-eighth of an inch in diameter will waste 20,000 gallons a month. A forty pounds to the inch pressure maintained in the pipes continually forces the water out.

There is no inclination on the part of the water department to run rates up, said Mr. Robinson. On the contrary, every effort is made to maintain an economical schedule as possible, but funds must be sufficient to sustain the service. In the event that consumers would observe caution in preventing leaks and consequent waste, he said, there is a possibility that rates could be made lower.

FORMER VERNON GIRL WEDS.

Miss Anna Tooley of Sulphur Springs Marries Pharmacist And Will Live In Estelene.

Miss Anna Tooley of Sulphur Springs and John Vardy of Estelene were married at the home of the bride Wednesday, according to word received by friends in Vernon. The young couple will be at home in Estelene about August 1.

The bride is a daughter of Rev. and Mrs. L. B. Tooley, who formerly lived here. Miss Anna was a student in the local high school, and graduated from Holcomb's Training School, after which she attended the College of Industrial Arts at Denton. She is a niece of Rev. R. V. Tooley, pastor of the Methodist Church at Tolbert.

Mr. Vardy is a graduate of the Wuester School of Pharmacy in Wichita, Kansas, and is employed at Estelene.

Has Remarkable Wheat Yield.

A wheat yield of more than thirty-seven bushels to the acre has been reported to the county agent from the H. Hildebrand place, north of the river. The farm is on mixed land and contains exceptionally rich soil. It is rumored that one farm near Crowley produced forty-eight bushels to the acre.

REAL ESTATE TRANSFERS.

F. H. Patterson to Rufus Waggoner lot 4, block 1, T. H. Shive addition for \$1,500.

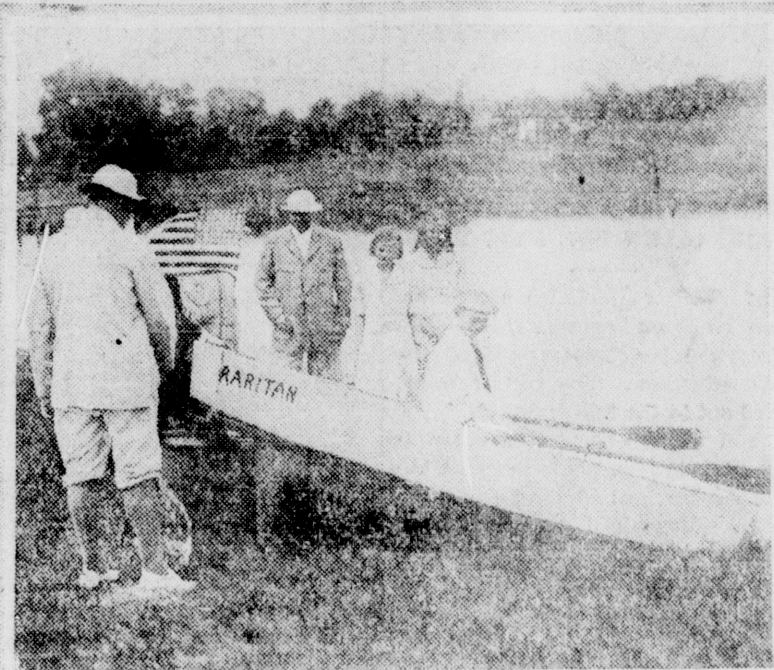

C. S. Rutledge and wife, P. E. Rutledge, to Pyrenes E. Rutledge lot 14, block 75, O. T. Vernon for \$3,256.75.

Sheriff's Force Busy.

A negro man and woman were taken into custody last night by the sheriff's force for alleged immoral conduct. Two white men were also arrested on the charge of drunkenness.

HARING ASSISTS BOYS TO LAUNCH ROWBOAT.

Acting as sponsor at Baritan, N. J., of a rowboat made by a nine-year-old boy, President Harding delivered a Fourth of July oration of a single sentence in tribute to the aspirations of America's boyhood. The diminutive craft, which inspired the coast, was the Raritan, nine feet over all, conceived and built by Joseph Frelinghuysen, Jr., son of the senior Senator from New Jersey, at whose home Mr. and Mrs. Harding were guests. The bank of an artificial lake was the scene of the launching and will be the home port of the Raritan as she sails a tramp course in search of misdirected golf balls. Specially constructed ways whose upper end rested on a soap box, guided her down the bank. The President broke a heriboned bottle of mineral water across her bow and said: "As a tribute to American boyhood, who build castles in the air, who build boats and whose achievements in the future will build this country, I christen this boat, the handiwork of Joe Frelinghuysen, the 'Raritan.'" The photo shows the President christening the boat, with little Joe at the helm.

CLOTHING CONTEST JUDGING SATURDAY

COUNTY GIRLS WILL SUBMIT ARTICLES OF WEARING APPAREL.

Articles submitted in the county club girls' clothing contest will be put on exhibition Saturday morning at 10:30, and judging will commence at 2 o'clock in the afternoon. County home demonstration agents have announced that all girls entered must be present when the award is made. First prize will be a trip to Texas A. and M. College July 25 and a week's attendance at the short course offered by the institution.

Nineteen girls are entered in the county clothing contest. Seven of these are from Odell, seven from Harrell, and five from Oklaunion. Judges selected by the Federated Clubs will be Mesdames O. A. Brinson, A. C. Boger, and Shirley Cook.

Set of School Clothing.

Preparation for the contest has been in progress for several months. The competition was announced about the first of the year, but a majority of the girls have waited until school duties ceased to press before commencing work on the wardrobe. The articles on exhibition will make up a complete set of school clothing, most of them being fashioned by the girl submitting them.

PRESIDENT HARDING IS AN ENTHUSIASTIC GOLF PLAYER

President Harding "putting off" on a tee on the course near the home of Senator Frelinghuysen, at Baritan, N. J. President Harding is an ardent golf fan and plays whenever he gets the chance, which is not very often.

TWO CONTESTS OPEN GOLF TOURNAMENT

MORRIS AND HUGGINS ARE WINNERS IN FIRST ROUND OF PLAY.

Only two flights of golf were played yesterday in the second tournament in progress at Hill Crest Country Club. G. C. Morris eliminated Frank Murchison 57 to 64 and Wallace Huggins vanquished Wylie Bennett in twelve holes. Morris and Murchison were tied in strokes at the end of the sixth holes but the former holed out in seven strokes less when the final count came.

Huggins and Bennett battled nine holes to a tie, 79 strokes, each, and played three holes to decide the rubber this morning. Huggins won 28 to 29. Both matches were played over the entire course, thus accounting for the comparatively high scores.

Were Many Forfeits.

The first day's play was featured by forfeits, most of these being due to the fact that numbers of participants are out of town. John Storey forfeited to J. A. Birdsong, Eric G. Schroeder forfeited to Luther Webb, E. P. Hicks forfeited to Hy Rogers, L. G. Hawkins forfeited to W. K. Long, R. D. L. Kilbough forfeited to H. E. Rogers, and L. E. Piper forfeited to Emory Rhoads.

Matches scheduled for today are E. C. Christian vs. W. D. Berry, and R. H. Coffee vs. L. K. Johnson. A. B. Swartwood and W. N. Stokes are slated to play tomorrow.

Grounds at Hill Crest are in excellent shape for the tournament. The bottom land has been mowed and the greens improved.

Married At Court House.

Marriage licenses were issued July 9 to Earl W. Hughes and Miss Sibbie Lee Jonett, who were married Saturday, July 9, at 3 p. m. in the office of Justice of the Peace T. J. Griffiths. The bride is a daughter of Mr. and Mrs. L. P. Jonett and Mr. Hughes lives near Condon Springs. They will make their home in Vernon.

Altus Elks To Initiate.

A letter and telegram were received today by the Vernon Elks Lodge inviting local members to an all day initiation and celebration that will be held tomorrow at Altus, Okla. It is possible that a number of Vernon Elks will make the trip in cars.

FIRST MEETING OF MILITIA IN COURT ROOM THURSDAY

Live Speakers Will Address Those Present, and Questions Concerning Organization Will Be Answered—Recruiting Office Aids Materially in Obtaining New Members.

A smoker in the district court room will open the first meeting of local militia Thursday evening at 8:30. Every man over 18 years old who is interested in the organization and all members who have made application to belong are especially urged to be present. Questions will be answered and there will be talks by energetic speakers.

A recruiting office has been opened by local militiamen in the downstairs room of the Sigler building and will continue there the remainder of the week. Captain Clyde Watts is in charge and he is assisted by J. V. Russell, Elzy Youngblood, and Jim Bonar. Recruiting has been stimulated appreciably since the office was opened and Saturday, especially, proved a banner day for new members.

At least fifty bona fide members is the aim of the local militia company. An attempt will be made to obtain sixty-five which is full war strength.

CALLEO WILL WRESTLE JULY 22.

Omaha Wrestler Is Substituted For Ackerman On That Date—Irishman Coming Later.

Gus Calleo, middleweight wrestler of Omaha, Neb. and not Al Ackerman will be the opponent July 22 of Young Gotch in a match staged here under the auspices of the Vernon Athletic Club, according to an announcement made yesterday. Ackerman has a contest scheduled at Wichita, Kans. about that time and will not be able to make his appearance then. However, the burly Irishman will come soon after for a match here with Gotch.

Calleo is a fast, powerful grappler and should give Gotch an interesting match. His prowess extends largely to the middle west, but he is being brought here under high recommendations.

Arrangements are under way to have the Gotch-Calleo match in the Opera House.

TOLBERT REDS WIN OVER BLUES IN PENNY CONTEST

A contest for sixty yards of pennies waged between Tolbert Methodist teams called the Reds and Blues closed Saturday night with 83 1-4 yards for the Reds and 76 1-4 yards for the Blues. Oscar Tooley was the leader of the winning team, and Montette Brooks of the losers.

A few weeks ago the Sunday School was divided into the two aggregations and it was decided that the winners would eat ice cream and cake while the "runners up" would feast on cheese and crackers. Both teams, however, enjoyed ice cream and cake after an interesting program last Saturday night.

Marriage Licenses Issued.

Marriage licenses were issued July 9 to Earl W. Hughes and Miss Sibbie Lee Jonett, July 9 to John Webbs and Lonella Sankey, negroes, July 9 to Evoy Ollens and Mrs. Alice Davis, July 10 to Fred Nelms and Lillian Long, negroes.

Visitors Return Home.

Mrs. R. H. Nichols and two little daughters, Mary and Emma Aileen, returned to their home in Amarillo yesterday after several weeks in Vernon as the guests of Mrs. R. H. Nichols' parents, Dr. and Mrs. H. H. Rhoads, and family. Miss Emma Rhoads and Little Miss Minerva Price Rhoads went home with them for a visit.

FIRE BREAKS OUT EARLY IN MORNING

CITY DRUG STORE AND ADJOINING BARBER SHOP BADLY DAMAGED.

Fire which broke out about 3:40 Saturday morning in the City Drug Store on North Main street caused considerable damage in the establishment as well as in a barber shop one door south. The origin of the fire is unknown and was discovered by the night watchman who fired his revolver several times to give the alarm. The fire station was finally reached from the White-Rose Cafe.

Smoke caused a great part of the damage, and a large plate glass window in the front of the drug store was cracked. The interior of both barber shop and drug store suffered materially from water, and Saturday owners of both establishments were unable to estimate their losses.

Only Minor Insurance.

R. A. Albert is proprietor of the City Drug Store. He carried only a small amount of insurance on his stock. O. B. Dawdy, proprietor of the barber shop, carried \$2,000 insurance on his establishment and believes this may cover the major part of the loss.

Attend Dance at Electra.

Numbers of Vernon young people went to Electra Friday night to attend a dance. Those in one party were Misses Geraldine and Mozelle Parker, Laura Tankersley, Bernice Towle, Maudie and Beulah Ladd, Bertie Hatt, Charley Mae Northercraft, Ruby Thomas, Annie Greaver, Thelma Batchelor, Doris Boger, Woody Dixon, and Messrs. H. A. Wallace, Orba McCurdy, Elzy Youngblood, Alfred Butler of Mineral Wells, Aubrey Foster, Evans Mason, Frank Nicholson of Wichita Falls, Roy Boger, Frank Finley, Russell White, Harold Shive, Clyde Batchelor, and Glen Knight.

CHICAGO MAN HEADS INSTITUTE.

Dr. H. W. Nutt, Of National Reputation, Will Conduct Meeting at Wichita Falls.

Dr. H. W. Nutt of Chicago will in all probability conduct the teachers' institute that will be held in Wichita Falls from September 5 to 9 inclusive, according to E. L. Dehoney, local school superintendent. Dr. Nutt is nationally known as an educator, and is the author of several books.

Four counties are now embraced in the institute. Archer has been added to Clay, Wichita, and Wilbarger counties. Attendance at the meetings is compulsory from all teachers.

Mr. Dehoney heads the executive committee of the entire institute.

Honey Grove Visitors Here.

Miss Floy Seay and Miss Lorena Murphy of Honey Grove are the guests of Mrs. Carl King. Cards are out for a party at Mrs. King's home on South Cumberland street Friday, when local young women will meet Mrs. King's guests.

Notice O. E. S.

The O. E. S. Chapter No. 424, O. E. S., will meet in regular session at 8 o'clock Friday night. Usual business will be transacted and installation of officers will be held. A large attendance is desired.

HARVEST SEASON HELPS COLLECTIONS

MERCHANTS STATE OLD DEBTS ARE BEING SETTLED MORE READILY

Inquiries from Vernon merchants concerning collections divulge the fact, that, for the most part, payments are more satisfactory at this time than for many months. Responses to the query as to whether the average debtor is meeting his obligations ranged from hearty acknowledgment in some instances to "a little better" in others.

Collections are fine for an implement company on North Main street. Wheat has been threshed somewhat earlier than at first anticipated, said one of the proprietors, and as a result more money is now in circulation instead of being delayed until the first of the month.

"Wheat has done very well this year," he said, "and we only have to look around to see how well off we are."

Old Debts Being Paid.

Collections are being made from some who deferred payment before, a tire merchant on Main street said. On the whole, business is not greater in volume than heretofore, but one can notice an increase in the sale of engines and parts due to the harvest season. Farmers and others, he said, are patching up their cars and machinery more this season than ever before.

Clothing merchants interviewed remarked that business is picking up but that many patrons had gotten out of the habit of "settling up." Grocery stores and ladies ready-to-wear establishments have felt no appreciable increase as yet from the influx of wheat. The jewelry business, one local merchant remarked, is affected more by cotton than wheat.

There appears in general a spirit of optimism on the part of Vernon merchants. Times are growing somewhat better, at least, and prospects, many think, are that improvement will continue steadily.

MRS. C. S. FOLTZ HEADED FOR ASSISTANT ATTORNEY-GENERAL.

It is rumored in Washington that Mrs. Clara Shortridge Foltz, sister of Senator Shortridge, of California, is to be appointed Assistant Attorney General to succeed Mrs. Annett Adams, who resigned recently.

HOME ECONOMICS ADDED TO LOCAL SCHOOL COURSES

Instruction in Spanish and Trigonometry Will Also Feature in High School Work for Coming Year—A. F. Winston Made Principal of Institution—Five New Teachers Appointed.

Business of moment at the meeting of the Vernon school board last Friday involved the installation of three new courses in the curriculum of the high school, and the selection of A. F. Winston as principal of that school. Home economics, Spanish, and trigonometry will be added to the studies next year for the first time in the history of local schools.

Partitions will be put in numbers of rooms on the second floor in order to accommodate the domestic science students and estimates are now being made for the work by local contractors. E. L. Dehoney, city superintendent of schools, will visit several towns where home economics are taught in the schools with a view of determining the best arrangement and equipment for the conduct of this course. For the most part, however, the suggestions of the State home economics director will be followed in the installation of equipment.

All Are Beginners.

"Next year everyone will be a beginner in Spanish," said Mr. Dehoney this morning, "but we expect to teach at least three years in that subject."

Miss Frances Oliver will teach in this course. Mr. Dehoney may serve as instructor in trigonometry.

The selection of A. F. Winston as principal of the school is not a surprise to most local school patrons. Mr. Winston has a broad experience as both teacher and principal, and is most capable to fill his new office. He will probably teach sciences. He takes the place of W. C. Smith, principal last year.

Five New Teachers.

Five grade teachers were appointed at the meeting Friday. They are Misses Grace Tyree, Rena Bates, and Joyce McBoath, who will teach in the Central school, and Miss Juanita Watson and Mrs. Flora M. Martin who will be on the staff of the Shive school. The grades each will teach have not as yet been assigned. Their appointments fill all vacancies for the present.

Buildings and grounds will be put in shape in the near future for the opening of the school term September 12. City Commissioners have agreed to clean up part of the Shive school grounds by the removal of a rock pile which remained from the time West Texas street was paved, and the Central school grounds will likewise be cleaned up. It is planned to level all the school premises and sod them. Buildings will also be overhauled.

GROWING TRUCK IN ARKANSAS.

C. F. Newth, Visiting Vernon For First Time, Says Farmers Are Diversifying In His State.

Truck growing is fast taking the place of cotton in Southwest Arkansas, according to C. F. Newth, who is in Vernon on a visit to his son, F. A. Newth of The Record. This is Mr. Newth's first visit to Wilbarger county. He is very much impressed with the appearance of things here, but doubts if the soil is quite so fertile as around his home town, Prescott, Ark. Farmers around Prescott have made marketing connections, and are finding welcome relief from growing cotton in producing truck. Mr. Newth says. Everything grows there. Prescott is only a short distance from one of the greatest Elberta Peach orchards in the world.

Peaches are not quite up to the standard this year, Mr. Newth says.

Good Rain at Farmers Valley.

An excellent rain fell Sunday in the Farmers Valley community, according to C. M. Blair, who with his family, spent the week-end in that locality and Medicine Mound. The moisture was greatly needed, Mr. Blair said, and there was considerable rejoicing on the part of the farmers.

Infant of R. P. Small Dies.

Little Joyce Leona Small, 26 days old, child of Mr. and Mrs. R. P. Small, died at 8:30 o'clock this morning. Funeral services were conducted at the residence at 7:30 this afternoon and burial was in East View Cemetery.

CANDYLAND**TWO NUTRITION CLASSES FORMED**

TWENTY-TWO CHILDREN ATTEND AT FIRST MEETING OF UNDERWEIGHTS.

Twenty-two children and their mothers were present Saturday afternoon at the first meeting of the nutrition class formed by the county Red Cross nurse. Those present were divided into two classes of eleven members each, and one organization will meet at 10 a. m. each Wednesday and the other at the same time each Thursday. The class meetings will be conducted for three months.

Chocolate milk shakes were served the children Saturday, and some form of nourishment will be given each time the respective classes convene. Stories were told also and talks were made. Miss Lacy discussed with the mothers various foods and their values, and Miss Ehlmann talked to the children on health habits.

Are All From Vernon

The classes are made up of children from 5 to 8 years old and some of them according to Miss Ehlmann, are as much as twenty per cent underweight. The children, all of Vernon, are about evenly numbered as to boys and girls. As far as is known this is the first class of its kind in the State conducted under the co-operation of both county home demonstration agents and Red Cross nurse. Mothers are manifesting a great amount of interest, it is said. Any children underweight are invited to attend the classes.

ON THE WING.

By J. W. Leigh.

With the "Flying Dutchman" attached to the buggy, we left town last Wednesday morning with Oklahoma, eight miles east on the Denver railway, as the objective, arriving late in the afternoon. En route, we left the main road at the Krebs farm going by way of Kingola, traversing part of the Dawson Valley. This section fringes the Pease river for several miles which, with thousands of acres of waving corn, maize and cotton, mingled with fields of wheat in the shock and in some instances threshers with hot, tired crews separating the grain from the straw, was a revelation to a stranger, besides bearing minute but eloquent testimony to the agricultural possibilities of Wilbarger county.

With few exceptions the crops were remarkably clean and growing rapidly. Hogs and poultry gave evidence of thrift on the part of farmers and their wives, while flowers, shrubbery and shade trees are indicative of refinement and civic pride. Oklahoma is a live village with two cotton gins, bank, elevator, garage and three or four stores. Clay Britte is Uncle Sam's man who weighs the packages, sells the stamps and hands to the girls of the town and country the love letters written by the boys. The town is surrounded by rich prairie lands producing big crops of grain and in consequence is a splendid market for the country's products.

Settled in 1879.

Within one mile of the prosperous village, is one of the handsomest rural homes we have seen in the northwest. We refer to the two story brick residence of Mrs. L. M. Smith. It was erected on an eminence overlooking the country for many miles and from her front porch one can see part of Southwest Oklahoma lying several stretches to the north, and many other objects in either direction with dozens of miles intervening.

B. F. Simmons resides two miles west of the town on a farm which he settled in 1879, and when there were only five other families in the county. The country was barren and the only inducement offered for settlement was land sold by the State at \$1.00 per acre on forty years time with only 5 per cent interest.

Proceeding westward from Oklahoma we passed through the East Vernon school district leaving behind fine

farms, promising crops, neat and attractive homes. Threshing was in progress in many fields and the yield from 12 to 25 and in one or two instances, 30 bushels per acre.

On Commissioner A. M. Bourland's farm we caught a glimpse of some thoroughbred Poland Chinas. They are of the big-bone type and the pioneer of this particular breed should receive the encouragement and success so justly due him.

Good Wheat at Lockett.

Lockett is in the midst of a fine farming country. Good wheat, promising crops of corn, cotton, and maize, with alfalfa yielding two tons per cutting, are encouraging signs of returning prosperity.

Kincheloe is laughing itself hoarse because of its good crops. Corn is practically made and there will be plenty and to spare when the rats get their quota. Maize is in the head and cotton in full bloom; alfalfa cut, baled and stored. On this jumbo farm (more than three sections we are informed) T. E. Davis is introducing thoroughbred Duroc Jersey hogs to his neighbors. He will reap his reward because the day of the scrub is gone.

We noted along the way that our good women are raising more and better fowls than formerly. On last Saturday the writer ate dinner with Mr. and Mrs. Roy Ferguson, the latter placing before this hungry pencil pusher a fried Buff Orpington.

During the four days itinerary we were the recipient of many courtesies and the kind hospitality of the following homes: Mr. and Mrs. L. E. Canafax, Mr. and Mrs. W. P. Nettles, Mr. and Mrs. T. J. Kern, Mr. and Mrs. T. E. Davis. In soliciting subscriptions to The Vernon Record we succeeded in placing the following on the

Roll of Honor:

J. N. White, W. J. Ellis, T. F. Davis, F. E. Stone, L. E. Canafax, Mrs. W. S. Bourland, W. P. Nettles, Mrs. L. M. Smith, B. F. Simmons, A. B. Jarrell, Mrs. A. C. Lee, T. J. Kern, C. W. Snyders, H. A. Hill, S. C. Davenport, J. L. Goodman, T. E. Davis, A. J. Sandage, Roy Ferguson.

It is our purpose to meet and form the acquaintance of the people of Wilbarger county and our burning desire is to place them permanently on the honor roll.

Vernon, July 11th.

Couldn't Help It.

Nance Odlen is a clever little crook having been trained by Tom Dorgan. Simulating an unbalanced mind she allows herself to be taken into the Ramsey home following a theft from the man of the house in which she has been an aide. In this home she meets Latimer, Nellie Ramsey's fiancé. He learns her true position and befriends her and helps her to make something of her talent for art. Later Dorgan escapes from prison and comes to her studio and she is accused of theft through a plot arranged by Nellie. She escapes however and finds happiness in Latimer's love for her.

Christian Sunday School ball players fell like demons on the offerings of Methodist pitchers yesterday and batted their way to a 14 to 3 victory over the disciples of Wesley. Key and Norwood were both hit hard, and Sheppard and Bridges of the winning team, connected for home runs. The latter carried four life blows from as many trips to the plate. Jones, Christian third baseman hit safely three times out of four times at bat.

None of the Methodist players were able to annex more than one hit, and Johnson pitched an excellent game. He struck out fourteen men.

GO TO THEATRE

At More's Theater.

Today—Ethel Clayton in "The Price of Possession."

After the death of her husband, Jim Barston, Helen finds among his effects an advertisement for one James Barston, heir of a large England estate. She leaves her little property and home in Australia and goes to claim the manor. She is immediately installed and the tenants and whole country-side are soon in love with her. Then comes the real Jim Barston, saying that Helen's husband, his cousin, had stolen the papers from him. He produces a birth certificate and after some controversies Helen gives up the place to him. He realizes, when she is gone, that the estate is worthless without her and goes and brings her back as his bride.

Wednesday—"The Scoffer." The story rotates around a great physician who is possessed of a deep faith in humanity until he has to serve a prison term for a crime he never committed—then he emerges from the dark cell a scoffer.

Thursday—"The Passionate Pilgrim." Matt Moore and Ruby De Remer have the leading parts in this production. The story deals with a novelist, who has been through a great tragedy which caused him to make heavy sacrifices, and an invalid heiress who has been left to direct a large estate. The two fall in love with each other but their paths cross many barriers before they finally merge.

At the Pictorium.

Today—Allene Ray in "West of the Rio Grande," and first episode of "The Lost City." "West of the Rio Grande" is tense with dramatic situation and many thrills. It was staged in a little forgotten Texas village on the border of Mexico and contains many beautiful scenic effects.

Wednesday—"Bunty Pulls the Strings." Bunty was a born diplomat and what a situation! He could meet any situation and straighten out the most hopeless tangles. How he manipulates her domestic affairs and manages four men by her Scotch wit and caution makes an interesting picture.

Thursday—Bebe Daniels in "She Couldn't Help It."

LUNCHEON AND BREAKFAST ARE GIVEN FOR MISS HICKS

Mrs. Walter McCaleb entertained with a luncheon honoring the bride-to-be, Miss Frances Hicks, at 1 o'clock yesterday afternoon. The color scheme carried out in the table decorations was pink and white, and place cards were small pink hearts. Places were laid for the following: Misses Oleta and Juanita Youngblood and their house guest, Miss Eleanor Phillips, Miss Mary Anderson, Miss Adelle Sumner, Mrs. S. S. Munger, Miss Hicks, and Mrs. McCaleb. The afternoon was spent in making handkerchiefs for the guest of honor.

Miss Mary Anderson entertained with a three course breakfast for Miss Hicks and the young ladies of her wedding party at 9:30 o'clock this morning. Decorations, place cards and favors were suggestive of a bride, and Shasta daisies being used to center the table. Bridge furnished entertainment during the morning, and high scores honors went to Miss Phillips. She and the guest of honor were given attractive favors. Covers were prepared for: Mrs. Walter McCaleb, Mrs. S. S. Munger, Misses Oleta and Juanita Youngblood, Miss Alma Phillips, Miss Adelle Sumner, Miss Dorothy Hicks, Miss Elizabeth Garner, Miss Hicks, and Miss Anderson.

WINS SECOND PLACE IN ESSAY CONTEST

HARROLD LAD IS AWARDED HONORS IN STATE-WIDE COMPETITION.

Second prize with a grade of 94 has been won by Abner Morris of Harrold in a State essay contest recently conducted by the Mistletoe Creamery Co. on "Why I Would Like To Be a Dairy Farmer." First prize in the competition carried with it a scholarship to the Texas A. and M. short course, or equivalent to about \$80.

The contest was open to any club member of the State. Four participated from Wilbarger county.

Following is the essay submitted by young Morris and which was awarded second prize:

Why I Would Like to be a Dairy Farmer.

There are several reasons why I would like to be a dairy farmer. Land is now getting very high throughout the United States. Some domestic animal must be kept on this land so as to make the largest profit on the smallest area. The dairy cow is one of the best for such conditions. Beef cattle were formerly raised in the United States very extensively, but now they are gradually disappearing and dairy cattle are taking their place.

People are now realizing the high food value of milk and its products and also its healthfulness. Many dairy cows give enough milk and butterfat in one year that the food value in it amounts to three times the food value in a large steer. Since milk and its products are so highly demanded, a good steady price will always be offered for both.

Dairy farming has the following advantages:

First:- The dairy cow is well suited to diversified and intensified farming when the farmer works to produce a very great income from a small acreage. Examples of this are found in Holland, Denmark and the Island of Jersey, where great profits are yielded on such a small area.

Second:- If the manure is properly kept and used dairy farming increases the fertility of the soil. If corn or other such plants are raised continually on land, it will soon become infertile. Since the manure helps the land the production of milk and butterfat takes much less food value from the soil than other crops.

Third:- The dairy cow brings a continuous source of revenue. When the steer is fattened and killed the profit and production ceases.

Fourth:- Skim milk, clabber and cream yield large profits, if properly used to hogs and poultry.

Fifth:- Good grade and purebred cows have a ready sale. The demand is so high, it is very profitable to raise this kind of stock.

Sixth:- There are many different breeds of dairy cattle to choose from.

Carl Niesler of Dallas is in Vernon on business.

Dairy farming is a very healthy, prosperous and honest business. It can be carried on very successfully with the rest of the farm work. Many records have shown this. All of these reasons explain why I would like to be a dairy farmer.

White City.

White City, July 11.—(By special correspondence.)—Cotton is fine in some places locally. Acreage is greatly reduced in this vicinity and a great deal of wheat, oats and feed stuff are taking the place of cotton.

The singing at White City Sunday afternoon was much enjoyed.

The Williams quartette of the Trio Music Company rendered some especially fine numbers. Among other prominent singers present were: Prof. Guy Rowe, J. S. Archer, Mrs. Will Lawson, Mr. and Mrs. Claud Brock, Mr. Brock and Grandpa Lundy, all of Tolbert, Mr. and Mrs. Castleberry and daughter, Miss Augusta of Fargo.

The young people enjoyed a singing at the home of Mr. and Mrs. C. N. Hobson Sunday night.

Among the Vernon visitors Saturday were: Mrs. J. C. Hughes and sons, Mr. and Mrs. R. L. Olive, Mr. and Mrs. Raymond Olive, Rev. W. W. Adams, Miss Una Mae Adams, Luther Anderson, Gusta Hardage, Orin Hobson, Jim Kays, and son, Phillip, R. L. Sellers, W. B. Covert, Luke and Clint White and Mrs. Phipps and baby.

Walter Starr of Vernon spent Sunday with his parents, Mr. and Mrs. J. P. Starr and attended singing at White City in the afternoon.

Miss Thelma Killough of Pleasant Valley visited Miss Una Mae Adams Sunday.

Wildcat News.

Wildcat, July 11.—(By special correspondence.)—Ladies of the Wildcat club met with Mrs. G. W. Hildebrand last Tuesday with Miss Edith Lacy and Miss Eula Goodfellow, County Demonstrators, as instructors.

The day was spent in canning beans and black eyed peas and making jelly. One hat was made and one dress cut out.

The demonstrators also taught the ladies new fancy stitches and how to make the trimming for dresses known as points.

At noon, the ladies enjoyed a bountiful dinner, and in the afternoon were refreshed with lemonade.

Those present were Mesdames G. W. Hildebrand, Alice Simpson of Clarendon, J. L. Burk, Sam Wallace, John Owens, Virgil Hildebrand and Misses Edith Lacy, Eula Goodfellow, Maude and Ada Hildebrand, Cora Liles, Gussie Norton and Beulah Burk.

The club adjourned to meet with Mrs. Nual Brooks, the first Tuesday in August.

Louis Franklia has gone to Harper, Kans. to engage in harvesting.

HOW WILL YOU VOTE?

Five amendments are to be voted on
 by Texans Saturday week. These propo-
 se to increase the salaries of the six
 executive officers of the Common-
 wealth; to increase pensions paid Con-
 federate soldiers; to change compensa-
 tion of members of the legislature; and
 to amend the suffrage article in the
 Constitution; and an amendment re-
 lating to the Prison Commission.

The pay of the governor, his co-
 workers, and the legislators was fixed
 nearly half a century ago, and what
 seemed liberal then is utterly inade-
 quate at this time. The sacrifice re-
 quired of a man who would fill a State
 office in Texas is such that very few
 poor men can aspire to such service.

Texas is amply able to pay the men
 who manage affairs of State, and The
 Record is of the opinion that to place
 the business of the State on a basis
 somewhat more nearly akin to the
 methods of business institutions would
 result in appreciable savings, even
 though such men might have to be paid
 somewhat more than the limits fixed
 by our Constitution permit.

With the governor paid \$4,000 a
 year; the attorney general \$4,000 a
 year; the superintendent of public in-
 struction, \$4,000; while the secretary
 of state and treasurer each receives
 \$2,500 a year. The legislators receive
 \$5 a day for the first 60 days, together
 with certain travel allowances.

It must be manifest that these al-
 lowances are inadequate.

The other amendments will be taken
 up another time.

SURPRISING DISINTEREST.

Lack of interest in testing cows for
 tuberculosis is surprising, when it is
 understood that milk from a tubercu-
 lus animal is the most prolific source
 of that dread disease which continues
 to take by far the heaviest toll of hu-
 man life.

Two years ago considerable interest
 was worked up. Men and women who
 had never given the subject a thought
 realized that where they saved a few
 dollars by not having their cows tested,
 such economy was had at the risk
 of every son or daughter in the home.

The law is clear, as we understand
 it. Persons selling milk and butter are
 required to have their cows tested. Of
 course, the law may not be enforced—
 just as the ordinance against spitting
 is not enforced.

Surely nobody wants to "lay down"
 on this most practical method of help-
 ing stamp out the great white plague.

HELP THE COUNTY FAIR.

Help the County Fair. By so doing
 you help yourself.

One of the large purposes of the
 County Fair is to bring country and
 town folks together. Nor is the time
 spent in thus mingling and finding out
 something of the other's likes and dis-
 likes by any means a loss.

When we understand each other bet-
 ter there is a larger appreciation of
 the aspirations of each; cursory jeal-
 ousies fade away, and both town and
 country takes new interest in helping

the other become a better place to live.

If it were not for the inspiration of
 seeing what the other man grows; the
 sense of pride that comes of finding
 out what a diversity of crops can be
 grown, and what fine hogs, cattle
 horses, and chickens can be produced—
 if it were not for these very real val-
 ues—the mere fact of getting better
 acquainted would be worth more than
 it costs.

"When you come to know a fellow
 and you understand his ways; then
 his faults don't really matter, for you
 find so much to praise.

WILL NOT REDUCE POWER.

Disarmament is a consummation
 which even those who have doubted the
 wisdom of going unarmed are com-
 ing to view as necessary if we would
 avoid burying ourselves under the
 avalanche of military and naval ex-
 penditures. It is gratifying, therefore,
 to note Lloyd George's statement that
 England will meet this disarmament
 plan with delight.

On the other hand, repeated state-
 ments that "Disarmament will not re-
 duce power," "that the United States
 Navy must equal any," seem unwise
 to say the least. They sound greatly
 like propaganda.

Is it not reasonable to assume that
 every nation will insist on its present
 status—that is, unless the burden is
 already so great that it is impossible
 to go on. The impossibility of going
 on may be apparent to some, but to
 other nations it is by no means con-
 clusive.

Undoubtedly it is desirable that the
 United States Navy should equal any.
 On the other hand, it is questionable
 wisdom to insist on this so strenuous-
 ly as to defeat any plan for disarm-
 ment. Above all, it seems unwise to
 flaunt such sentiment just at this
 time.

Thompson Community

Thompson, July 11.—(By special cor-
 respondence.)—A light rain fell in
 this community Sunday.

Mr. and Mrs. R. L. Sellers and three
 children Cecil, Frances and infant son,

Brenlin
 the long-wearing window
 shade material

**Be sure the window shades you buy
 won't crack and break!**

Ordinary window shade material is made of coarse
 muslin which is filled with chalk and clay. The wear
 of daily usage causes this filling to loosen and fall out,
 leaving the shade full of cracks and pinholes.

But Brenlin wears and wears

Brenlin is made of fine, closely woven cloth which con-
 tains not a particle of chalk, or clay, or other filling.

It wears and wears. Hangs smooth and straight. No
 cracks, no pinholes deface it!

Tinted with the finest, fast colors Brenlin Window
 Shades will not spot in the rain nor fade in the sun.
 They wear three times as long as ordinary shades.

Come in and see the many rich colorings we have in
 this long-wearing shade material. Let us show you how
 little it will cost to shade your windows with Brenlin, and
 help you select just the tone that will harmonize with
 the color scheme of your room. Come today.

IN SOCIETY

Mrs. Massie Is Hostess.
Mrs. F. L. Massie was hostess for the 1921 Bridge Club at her home on Main street this afternoon.

Has Second Meeting.
The Monday Bridge Club, recently organized, held its second meeting yesterday afternoon with Mrs. Harry Colley. The members present were Mrs. E. M. Haney, Mrs. Howard Tim belake, Mrs. Joe Parker, Mrs. Dee Norwood, Miss Johnnie Mallow, Miss Robbie Standiford and Miss Donalita Standiford. The hostess entertained as extra guests Miss Helen White, Miss Louis Pender, Mrs. Hub Colley, and Mrs. Will Colley. She served a salad course and an ice course.

Entertain House-Party.
Misses Robbie and Donalita Standiford entertained with a house party over the week-end, having as their guests Miss Helen White of Weatherford, Miss Louis Pender of Wichita Falls, Ross Landy of Fort Worth and Wren, C. Mrs. Dalton Westmoreland of Dawson left this morning after a visit with her son Autrey. Mrs. Westmoreland returned to Harold to visit her daughter.

RED CROSS HINTS.

The Mosquito.
Few communities and localities are fortunate enough to be free from the mosquito, which announces his advent by his peculiarly unpleasant "song" with the opening of early summer and continues his career until far into the fall in many places.

Mosquitoes are disease spreaders and those maladies known to be carried by this insect are malaria, yellow fever, dengue fever, and filariasis. Breeding places, especially for the domestic mosquito, are in any small collection of water that may be present in tin cans, bottles, flowerpots, pools, gutters, sewers, etc. The malaria mosquito usually prefers the margins of ditches and lakes, swamps and low bottom lands.

Should Screen Buildings.
All buildings in localities infested with mosquitoes should be screened. No water should be allowed to stand in containers around the house. The grass should be kept cut short so it will not serve as a hiding place for mosquitoes. Low places should be drained by ditches. Oil may be used as a measure to prevent breeding. It should be placed in a fine film over the surface of the water, a light oil being best adapted for the purpose. It requires an ounce of oil for each 15 square feet of surface and must be renewed several times a month.

Itching and irritation from mosquito bites can be relieved by a lotion of carbolic acid. To make this lotion add a level tablespoon of borie acid powder and 20 drops of pure carbolic acid to a half pint of hot water. Stir well and shake until the borie acid is dissolved. Cool before using and apply by dabbing on with a wad of cotton or spraying on the surface with an atomizer.

GOD'S FOOLISHNESS WISER THAN MEN

THE CHRISTIAN MINISTER SAYS
WORLD IS PRONE TO
SCOFF AT WORD

"The Foolishness of God," a recent sermon by Rev. Gus Ramage pastor of the Christian Church, is printed here with at the request of numbers who heard it. The text which is drawn from the first Corinthians, is "Because the Foolishness of God is Wiser Than Men; And the Weakness of God is Stronger Than Men." The sermon is a straight from the shoulder, matter of fact discussion of a topic that is naturally of great interest to everyone. The one outstanding thing about the plan of salvation, said Mr. Ramage, is its simplicity. The great barrier that stands between man and the plain teaching of Jesus Christ is the wisdom of the world. Man has become so wise in his own conceits that he has supplanted his own wisdom for that of the Lord. Today we hear the great men of the world tell that the book of Genesis is but a myth and they laugh at the story of Jonah and the whale. This is because they cannot reason these things in the light of nature.

Draws From Old Testament.

The Christian minister went back to the Old Testament for examples of the wisdom of God. The actions of Noah, he said, would be considered those of a lunatic today, as they were in his time. But later events revealed that building the ark was the wisest thing to do after all.

When deadly serpents came into the camp of the Israelites Moses made a brass serpent and put it upon a pole and told the people they would live if they would only look upon it. This seemed so foolish that many refused to do so and as a consequence perished. However, those who obeyed the direction, which was from God, were saved.

Naaman went to Elisha to be cured of the leprosy. Mr. Ramage related. He was told to go dip himself seven times in the river Jordan but this he decided was a foolish thing to do and he preferred going home and bathing in the waters near where he lived. However, he was persuaded by a servant to try the prophet's remedy and no result, he was cleansed of his leprosy.

Directions Won Victory.

Gideon and his army and the capture of Jericho also served as examples in Mr. Ramage's sermon. On both these occasions, he said, the directions appeared to be foolish but following them resulted in victory in each case.

Drawing examples from the New Testament Mr. Ramage mentioned the birth of Christ and how disappointing in manner it was to the Jews. They had expected their Savior to be born of rich and prominent parents and choose for his disciples men of wisdom and high standing. This manner of coming into the world appeared to them as foolish.

Jesus also told the blind man to go wash in the pool of Siloam and until this poor fellow had obeyed Jesus he was without sight. After obeying this command he came seeing. Still, at the outset this direction from Christ appeared to be extremely foolish.

Should Obey Christ's Plan.

Mr. Ramage exhorted his congregation to obey Christ's plan. It may seem foolish, he said, but it means eternal life. It is necessary that we believe in the death, burial and resurrection of Jesus as it is impossible to be well pleasing to God without possessing these convictions. In this plan is commanded repentance as well as baptism. We must obey His commandments, live the Christ like life even unto the end.

Because God's way seems foolish to our way of thinking we may substitute one thing for the other and change the world. This is not according to God's plan, however, and the only safe method is to obey that form of doctrine which was delivered to us.

CHEERFUL WORDS

For Many a Vernon Household.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove helpful to hundreds of Vernon readers.

Mrs. J. T. Saunders, East Texas st., Vernon, says: "I know just what Doan's Kidney Pills are for I have used them on different occasions when I was in need of a kidney remedy. When my kidneys have been a little out of order or my back has ached from doing my housework I have taken Doan's Kidney Pills and they have always given me splendid results. Another member of my family has also used Doan's Kidney Pills and had good results and praises them highly."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Saunders had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Adv 11

PROPER CARE LENGTHENS LIFE OF ALL LEATHER PRODUCTS

Good Harness With Suitable Care Will Last 20 Years or More—
Frequent Washing and Oiling of Leather Are
Simple Methods Needed.

It is poor business to neglect the care of leather. Every pair of shoes, every machine belt, piece of harness, or other leather product on the farm that is allowed to go to waste or not made to yield its full service must be needlessly replaced, thus adding unnecessary expense to the farm. Say specialists of the United States Department of Agriculture. On many farms a set of harness lasts less than 10 years. Where 8 or 10 horses are kept this means one new set of harness every year. The department has received many reports, especially from Southern States, showing that harness lasts only from 2 to 5 years. But good harness, properly cared for, will last 20 years or more. In every neighborhood there are cases where farmers are cutting their harness bills in half by giving the leather a cleaning and oiling occasionally.

Fifty million pairs of shoes could be saved annually if the American people kept their footwear in repair, the specialists say. As a nation we buy some 300,000,000 pairs of shoes a year but if each individual cared for his shoes properly the needs could be supplied by 250,000,000 pairs. The wasting of a single shoe a year by each person in the United States would cost the country at least \$250,000,000 annually at present prices of shoes.

Any leather improperly used and neglected will deteriorate rapidly. Belts for driving machinery, for example, often become impaired, if not useless, within a few years even on straight drives, but when they are kept clean and oiled they will last from 10 to 20 years.

Selecting and caring for harness.

Harness that is too light or of poor quality can not give many years of service. In selecting harness it is more economical to get a set that is too heavy than one which is too light for the work required. Make sure especially that the reins, breeching, hold back straps, tugs or traces, bellybands, and yoke straps are strong. A runaway team can not be controlled with weak reins, nor will weak tugs and straps stand heavy work. No portion of the harness should show cracks on the grain side when the leather is sharply bent.

Harness should be washed and oiled when it becomes dirty or extremely dry. For washing, use tepid water, a neutral soap, such as castile or white toilet soap, and a sponge or fairly stiff brush. Hardened grease is very conveniently removed by scraping with a dull knife. Rinse in clean, tepid water, and allow the harness to stand in a warm place until it is no longer wet but still damp. Then oil it and leave it in a warm place for 24 hours before being used. Harness should be oiled or greased while still damp; otherwise it may take up so much grease that it will pull out of shape or take up sand and grit, which will injure it, as well as spoil its appearance. Harness should never look or feel greasy.

Neat's foot or castor oil or a mix-

ture of these with wool grease is good for driving harness. For heavy harness use a mixture of any or all of these with wool grease to make a paste, having about the consistency of butter. Apply the grease lightly to driving harness and liberally to work harness. Rub the oil or grease, warm to the hand, thoroughly into the leather while it is still damp from washing. After the harness has hung in a warm room overnight, remove with a clean dry cloth the excess of oil which the leather is unable to take up.

Keep Belts Clean.

In selecting a belt for driving machinery, make sure that it is wide and heavy enough for the load it is to carry. Ordinarily the competent belt maker's advice as to the proper belt for a given installation should be followed. If the belt is not suited to the work it gives trouble continually, causing shutdown of machinery that will soon cost more in loss of time and wages than many good belts. It should always be sufficiently flexible to cling closely to the smallest pulley over which it passes. A belt will not give satisfactory results if it slips, does not run true, is not properly leaved, is run too loose or too tight, is subjected to rapid changes from light to heavy loads, is alternately wet and dry, is run on pulleys that are not true or are too small for the weight and thickness of the belt, or is neglected and allowed to deteriorate for lack of grease.

The belt should be wiped off every night to prevent dust, dirt, or oil from working into it. When the belt needs oiling clean it well, especially on the pulley side, by washing with warm water and a good neutral soap. Wash rapidly and do not permit belt to become wet, as it will then stretch and slip. Apply the dressing lightly and evenly by rubbing it in with cotton waste or a piece of felt, and allow it to soak in the belt overnight. Among the best belt dressings are mixtures of cod and neat's-foot oils with tallow and wool grease, free from mineral acid.

SUCH IS LIFE.

"Eighteen years ago I had three ribs broken, fourteen years ago my right leg; eleven years ago I nearly went over with typhoid fever and since then have had awful stomach and liver trouble. Was filled with gas most all the time. I would have colic attacks so bad as to become unconscious. No medicine helped me and doctors advised an operation. One day talking with a stranger he recommended Mayr's Wonderful Remedy, which helped me at once." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. No dose will convince or money refunded.
